

92 West Paces Ferry Road

Atlanta, GA

J.M. Wilkerson Construction Co., Inc. was selected to construct the 92 West Paces Apartment project located in the heart of Buckhead.

The 9-story tower offers 210 luxury apartments and 379 parking spaces with an Arriscraft Stone and Stucco Skin. The structure is comprised of post-tension concrete, 5.5" epicore slabs, load-bearing metal stud walls and light gauge infill. The team successfully delivered the first of eight phases 13 months after breaking ground, allowing the first residents to move in while the upper floors are under construction. The project boasts 9½ft ceilings with custom cabinets, granite countertops, wood and tiled floors, stainless steel appliances and architectural trim. The parking garage has a subterranean first floor with 2½ levels above it. The Owner added a 2,000 sq. ft. roof top terrace overlooking the midtown skyline to accompany the 3rd floor clubroom, Cyber Lounge and Pool Amenity Deck, plus the 4th Floor Rock Gardens, Fire Pit and Bocce Ball Court.
