Our Mission

J.M. Wilkerson Construction's mission is to manage the construction process to ensure we give our clients more value than expected in Quality Assurance, Cost Control, Schedule, Performance, Working Relationship and Safety.

Jim Wilkerson
Owner/Chairman

- The JMW commitment extends beyond the construction process. We strive to earn your trust. Trust is the foundation to all successful working relationships.
- We perform our work with integrity. Our word is our commitment, and we never waiver from a commitment we make.
- We take ownership of a challenge. Challenges are inevitable, therefore, we admit our mistakes and take corrective action to ensure a positive end result.
- We work hard to exceed your expectations. This is our mission and our commitment to you.

J.M. Wilkerson Construction seeks long term involvement with our clients. Repeat business from satisfied clients is critical to our success. As partners in the construction process, we work together to reach common goals.

Firm Description

Building for Generations

Company Information

J.M. Wilkerson Construction Co., Inc.
1734 Sands Place - Marietta, Georgia 30067
Primary Contact - Mike Travis
Telephone: 770.953.2659 Fax: 770.933.9665
E-mail: mtravis@jmwilkerson.com
Website: www.jmwilkerson.com

- J.M. Wilkerson has been in Business for over 38 years
- Ownership - Corporation
- State of Residency / Incorporation - Georgia
- Office Location - Marietta, Georgia

Wheat Street Tower - Atlanta, Georgia

Established in 1982 by Jim Wilkerson, J.M. Wilkerson Construction provided tenant interior renovations before expanding into industrial, office, institutional and concrete work. Today, JMW provides a wide array of services and has experience in many building types including, but not limited to, multi-family, historic renovation / adaptive reuse, industrial, tenant interiors, retail, religious, institutional, transportation, hospitality, concrete, rail and environmental projects. Our mixture of commercial and heavy/industrial projects is unique in the Southeastern markets.

The ability to provide services to both major market sectors, allows our teams to work on a wide array of projects. When it benefits a project, JMW can perform sub-contracting work in-house, providing a single source of responsibility and management. This frequently adds genuine value to our team and provides the client with greater protection. JMW's steady growth is based on the continued commitment of Mr. Wilkerson and his employees to provide personal attention and exceptional service to each client. Mr. Wilkerson takes pride in his organization and plays an active role in every project JMW undertakes. This family owned business works hard to maintain its quality and talented staff, many of whom have been with the company for over 38 years.

JMW's President and CEO is Brett Hawley. Brett joined the team in 1994, moving from Kansas City, MO to Georgia. His extensive knowledge in heavy construction complemented JMW's already broad experience base. Brett brought not only heavy civil and construction backgrounds, but commercial, hospitality and estimating knowledge, as well. Brett has helped the JMW team grow many new market sectors providing additional experience for future jobs.

JMW's Vice Presidents are Austin Pruitt, Michael Travis and Chris Griffeth. Austin Pruitt has worked with JMW in various roles and is now the Chief Estimator. Pruitt's knowledge of construction, estimating, and his ability to coordinate subcontractors makes him a valued member of the JMW Estimating Department. Austin works with both our Commercial Construction bids and Heavy Construction Departments and leads most estimating for JMW.

Mike Travis is the leader of the JMW Business Development department. He has been connected to the Design, Construction and Development industry for more than twenty years. As an architect graduating from the University of Oklahoma, he helped to execute and manage over a billion dollars in projects with teams like RTKL, Perkins Will and Smallwood Reynolds Stewart Stewart. His background in architecture, development and construction is critical to JMW's pre-construction efforts and new business pursuits.

As one of JMW's most accomplished project managers, Chris Griffeth has worked on all types of projects and has been with the JMW team for over 10 years. Possessing many strengths in his management, Chris has become quite successful in the administration of HUD or federally funded as well as task order or on-call projects. He has successfully completed multiple projects for the Atlanta Housing Authority, City of Atlanta as well as Federal and Military agencies.

Building for Generations

Services

J. M. Wilkerson Construction offers a well-rounded array of construction services in the following areas:

Pre-Construction Services

Planning and Procurement
Design Review & Value Analysis
Budget and Cost Estimation
Value Engineering
Building Information Modeling (BIM)
LEED or Sustainable Construction Review
Design / Build
Scheduling

Construction Services

Project Management
Cost Control
CM @ Risk
General Construction
Sustainable Construction
Environmental Construction
Heavy /Civil / Concrete Construction
Site & Grading

We take great pride in giving our clients more value than they expect, and to that end, dedicate ourselves to constructing the highest quality product available. Just as significant, are the relationships we develop along the way.

We strive to establish a healthy, respectful relationship that will help us provide the highest level of service, which will continue in the years ahead. This philosophy has remained a consistent thread throughout JMW's 38 years in operation, allowing us to continue "Building for Generations".

Venue Brookwood Apartments - New Housing

Avondale Hills - New Construction

Hotel Indigo in Athens, GA - LEED Gold

MARTA Grout Pockets - Heavy Construction

Green Building Experience

The philosophy of sustainability has become a major focus to many owners. This philosophy has also been embraced by both design and construction professionals across the country. With this new emphasis to provide more efficient buildings and practice more sustainable construction, the development of new operating procedures has become essential. The teams at J.M. Wilkerson Construction have been responsible for the construction of over \$97.6 million in completed LEED (Leadership in Energy and Environmental Design) or sustainable projects. These projects have included residential, commercial and industrial types of construction, covering over 225,364 square feet of area.

With this relatively new type of design and construction, our teams have made great strides in obtaining the necessary skills to both document and execute sustainable projects of this type. With LEED accredited professionals on staff at JMW, we have created detailed procedures for tracking projects from creation through implementation. Our teams have been able to achieve tremendous success with respect to sustainability goals on behalf of our owners.

The process and execution of a sustainable project is greatly dependent on the communication skills and involvement of both the design and construction professionals. The earlier these teams begin to review the level of sustainability an owner seeks to achieve, the greater the chances for success. In addition, the decision to develop a sustainable project requires a team to closely review the type of materials specified, the construction staging proposed, the electrical and plumbing designs, as well as, the smaller details throughout the facility.

Our construction teams make every effort to perform and practice sustainability on every project. We work hard to divert construction waste from landfills, and to employ the use of local and recycled materials where possible. We have developed comprehensive Waste Management and Indoor Air Quality Programs, as well as, tracking forms necessary to maintain accurate records for the filing and recording of sustainable data.

In 2009, J.M. Wilkerson Construction won the Sustainability Practice award at the AGC Build Georgia Awards. AGC selected the DeKalb County Central Transfer Station, completed by our teams in 2008. This LEED Certified facility was delivered for just under \$25 million and was one of DeKalb County's first major LEED projects. The facility was situated on an existing brown field and required the removal of over 100,000 cubic yards of unsuitable material and incorporated both industrial and office building structures. The project was completed 4 months ahead of schedule with no owner change orders. More recently completed projects incorporating LEED or sustainable construction practices include the Indigo Hotel located in Athens, GA, CHRIS Kids located in Atlanta, GA, and Charlottetown Terrace located in Charlotte, NC.

Over 1532 tons of waste diverted
On Hotel Indigo - Athens, GA

Deepdene Park Restoration - Atlanta, GA

With the completion of the 93,477 square foot Indigo Hotel, J.M. Wilkerson Construction made history completing the 9th LEED Gold hotel worldwide. This was also the first hotel for Intercontinental Hotels Group (IHG) to reach a GOLD rating within their 4,400 hotels worldwide. This project diverted over 1,600 tons of construction waste from landfills and was constructed in only 12 months. This project won J.M. Wilkerson Construction the 2010 Sustainable Practice award from the AGC, as well as, a ULI award of Excellence.

J.M. Wilkerson Construction was also awarded The Affordable Housing Builder of the Year for Earthcraft Multi-family 2010. This award was presented for work on the CHRIS Kids project. This multi-family housing development devoted to help young adults from prior foster care situations, and was the first of a two-phase project. The award was presented by the Southface Energy Institute and was one of the first Builders Challenge multi-family projects recognized by the U.S. Department of Energy.

The \$11 million LEED Gold Affordable Housing project, Charlottetown Terrace, located adjacent to downtown Charlotte, was completed on time and within the authorities budget by the JMW team as a Construction Manager at Risk.

Charlottetown Terrace had a complex commissioning process where the owners managed the overall process but utilized both outside commissioning agents, as well as, our own team LEED AP to provide the necessary documentation and activities to reach their goal.

We worked with the Charlotte Housing Authorities to set up regularly scheduled meetings where commissioning was outlined, defining roles of responsibility. Team members were assigned specific scopes of work required to reach the LEED goals. JMW was assigned direct commissioning responsibilities that included the coordination and verification of many aspects of the enhanced commissioning process. Our team also provided direct assistance on all final training and verifications, as required by the commissioning process.

Both field and office staff provided reports, submittals and RFI's to the owner's commissioning team. Any changes in the construction documents or material selections required specific reporting to maintain accurate accounts of where the project stood. JMW's team was directly responsible for this coordination with the design team.

We provided all verification for materials, recycling, installation methods and waste reporting. We shared the responsibility with the rest of the owner's team that construction was in-line with the commissioning agent's base building design model. Commissioning meetings and inspections were pro-actively scheduled to include all major milestones for HVAC installation, lighting, roofing, and items that affected the base energy model set by the team.

Other sustainable construction experiences included working with teams like Energy Ace and DeKalb County's LEED consultants for the Indigo Hotel and DeKalb County Transfer Station. Each project had its own unique twist on the Commissioning process but was formatted in a more conventional Owner, Contractor, LEED consultant role. Our LEED and sustainable background offers great benefit and experience to meet the needs of any project.

JMW Teams have Successfully completed more than \$97.6 Million in LEED projects

- Indigo Hotel, Athens, GA - \$15.1 Million - LEED Gold
- DeKalb County Central Transfer Station & Administrative Headquarters - \$24.3 Million - LEED Certified
- CHRIS Kids, Atlanta, GA - \$4.8 Million
- Charlottetown Terrace, Charlotte, NC - \$11.1 Million - LEED Gold
- Imperial Hotel (Historic Affordable Housing Project - \$11 Million - LEED Multi-Family
- Lafayette Sustainable Housing Developments - \$5.7 Million
- Ponce City Market, Atlanta, GA - \$25.6 Million - LEED Silver

J.M. Wilkerson Construction is committed to the execution of innovative and challenging projects. We have made the commitment to provide the highest level of service combined with thoughtful and responsible construction practices.

Building Information Modeling (BIM)

J.M. Wilkerson Construction utilizes Building Information Modeling (BIM) software on almost every project. Understanding the importance of this new technology for our industry, we have devoted full time employees to the development of its benefits, creating BIM models for pricing, clarification and review. In addition, we now work with our clients and design teams developing models that show Conceptual, Marketing, Estimating, Design, Logistical, As-Built Conditions, and Facility Management.

BIM creates a dynamic 3D model of a project which aids in the concept, design, and construction process. It does this through the use of object driven data which includes building geometry, spatial relationships, geographical information, quantities, and the properties of building components. This allows us to visualize, coordinate, predict costs, resolve conflicts, and extract data, before we actually start the construction process. Also, with advances in technology and software, BIM allows us to branch out into 4D encompassing time and scheduling, and into 5D integrating estimating and cost.

BIM has become a major part of our process from the pre-construction phase through final closeout, enabling the owners, design team, and construction team to see the project in a 3D digital model, during all phases of construction. Being able to visualize the project at the conceptual phase, allows us to plan budgets, logistics, and phasing, as well as, to define the scope of work for the individual trades, scheduling around any conflicts seen in the model. This helps reduce costs that may have required rework, change orders, RFI's, and delays to the project.

Using BIM's expansive databases for both quantities and material take-offs, creates a more accurate estimate and aids in the purchasing process. Once under construction, BIM enables the construction managers to better understand the design and accurately plan the remaining steps. It also enables our onsite managers to track the construction schedule through its use of project phasing. Also by tracking changes throughout the project, BIM provides a more comprehensive set of as-built drawings, allowing the end user to manage the facility with a detailed understanding of what was put in place during the construction process.

We strive to contract with Sub-contractors who have BIM resources, but often need to supplement their capabilities with our own expertise. If required by the owner or the project specifications, we will create as-built files that incorporate all structural, mechanical and electrical trades. This tool has become a critical step in our recent success with our sub-contractors, using it on many significant projects.

JMW utilizes the following programs:

- Revit Architecture
- Revit Structure
- Revit MEP
- Auto CAD Civil 3D
- 3DS Max Design
- Navis Works
- QTO
- Auto CAD (Full Suite)

GSU (BIM) Study - Atlanta, GA

Personnel Capability

J.M. Wilkerson Construction's commitment to its employees has stayed strong throughout the company's history. JMW currently has over 84 employees. Located at our home office are 16 employees providing project and company management, as well as, estimating, accounting, marketing and administrative activities. Located in the field, providing supervision, are 19 employees. For additional detail see the break down below.

Home Office - 16
Project Engineers - 2

Superintendents - 12
Foremen - 5

Craftworkers - 29
Laborers/Helpers - 20

Safety Information

Safety in all of J.M. Wilkerson Construction's operations is not only a company goal, but a requirement. We create a culture in which safety is a core value. Our commitment is to provide a safe and productive environment for everyone involved with our projects. At no time will safety be compromised because of cost. OSHA standards are met or exceeded at all times.

It is JMW's belief that accidents can be prevented through planning, training and a cooperative effort in all areas of our operations, with our goal being to eliminate all injuries. This goal is accomplished by the following safe working practices on all of our construction sites.

The project managers, superintendents, foremen and safety manager have full support of management in enforcing the provisions of our Safety Policy, as it relates to the responsibilities assigned to them. Prior to start of work, each trade attends a preparatory meeting to discuss the scope of work, its hazards and controls.

Our superintendents and foreman are required to keep their safety training and education current. Each superintendent conducts weekly site safety meetings and inspections. We also utilize available safety resources such as the AGC's Site Safety Training Programs and the Construction Safety Competency Training courses.

JMW is a Drug Free Workplace, certified by the GA Workers Compensation Board.

Required Supervisor Training

OSHA 30 Hour
CPR / First Aid
Confined Space Entry
Fall Protection
Scaffold Training
Trench / Excavation Training

Hartsfield Jackson - Atlanta, GA

Industry Affiliations, Memberships, Awards & Honors

Over the years, J.M. Wilkerson Construction has successfully completed many general construction projects for Federal, State, local and private clients. We have completed new construction, adaptive-reuse, historic rehabilitation, environmental, heavy civil, concrete, religious, industrial and tenant work. We pride ourselves on providing only the highest quality services, using the most professional teams possible. Over this history, JMW has been awarded many accolades for their services and successful completion of projects. These awards prove that team work help to make even the most challenging projects accomplishable. Listed below are only a few of the many awards and honors JMW has received.

- 2019 AGC Build Georgia Awards First Place - Wheat Street Tower
- 2018 AGC Build Georgia Awards First Place - Studioplex Commercial Podium
- 2017 AGC Build Georgia Awards First Place - Studioplex Parking Deck
- 2017 AGC Build Georgia Awards First Place - Lake Blackshear Resort Renovations
- 2017 AGC Build Georgia Awards First Place - Juniper & Tenth Renovations
- 2016 AGC Build Georgia Awards First Place/Best Sustainable Building Practices - Ponce City Market - Parcel F Deck
- 2016 AGC Build Georgia Awards First Place/Best Sustainable Building Practices - Atlanta Beltline North Avenue Plaza
- 2016 AGC Build Georgia Awards First Place - Lockheed Martin B1 Emergency Stairwell Egress
- 2016 ACI First Place in the Parking Deck Category - Ponce City Market Parcel F Parking Deck
- 2015: AGC Build Georgia Awards First Place - Ponce City Market - The Flats, GA Trust preservation Award for Excellence in Sustainable Rehabilitation - Imperial Hotel
- 2014: AGC Build Georgia Awards First Place - Imperial Hotel, Urban Design Commission Awards Of Excellence First Place - Imperial Hotel, National Housing & Rehabilitation Association Awards Best Historic Renovation using Tax Credits Finalist - Imperial Hotel, Atlanta Regional Commission's Development of Excellence Award - Imperial Hotel, Edson Award for Tax Credit Excellence - Imperial Hotel, NALHFA Exemplary Project - Imperial Hotel, AIA Atlanta Honor Award for Residential Design - Imperial Hotel, APAB Award of Excellence - Imperial Hotel, Preservation's Best Award - Imperial Hotel
- 2013: AGC Build Georgia Awards First Place - The Sweet Auburn Curb Market - Restoration, AGC Build Georgia Awards First Place Best Sustainable Practices - The Sweet Auburn Curb Market - Restoration, Urban Design Commission Awards of Excellence Award First Place - The Sweet Auburn Curb Market - Restoration
- 2012: Non-Profit Building and Design Award from USBGC Charlotte Region Chapter, 2012 Sustainable Business Awards - Charlottetown Terrace, Apartment Renovation of the Year from Multi-Family Executive - Charlottetown Terrace, Green Project of the Year from Multi-Family Executive - Charlottetown Terrace, Design/Build Award Runner Up from DBIA Southeast Region - Hartwell City Hall, Design Award from the City of Decatur - 313 E. College Avenue
- 2011: AGC Build Georgia Awards First Place - CHRIS Kids
- 2010: AGC Build Georgia Awards First Place - Rialto Room, AGC Build Georgia Awards First Place - Hotel Indigo, Athens, GA, AGC Build Georgia Awards First Place - Peachtree Creek Slope Stabilization
- 2009: AGC Build Georgia Awards First Place - Castleberry Point Lofts, AGC Build Georgia Awards First Place - DeKalb County Central Transfer Station, AGC Build Georgia Sustainability Award - DeKalb County Central Transfer Station
- 2008: AGC Build Georgia Awards First Place - MARTA Fare Barriers, AGC Merit Build GA Award - Renaissance Walk at Sweet Auburn
- 2007: First Place Award in the Specialty Category from the American Concrete Institute (ACI) - Brook Run Skate Park, AGC Build Georgia Awards First Place - Georgia National Cemetery
- 2006: AGC Build Georgia Awards First Place - Hardman Farm Phase I Stabilization
- 2004: AGC Build Georgia Awards First Place - Holy Transfiguration Greek Orthodox Church
- 2003: First Place Award from the American Concrete Institute (ACI) - Bus Lot Reconstruction for MARTA Laredo Bus Facility
- 1999: Award of Excellence from the American Concrete Institute (ACI) - Stone Mountain Lake Spillway Replacement, Award of Excellence for Adaptive Use from the Atlanta Urban Design Commission - Swift & Co. Lofts
- 1997 First Place Award in the Mid-Rise Category from the American Concrete Institute (ACI) - The University of Georgia Chemistry Annex Building

<p>Name of Organization Project Location Dates of Service Project Description</p>	<p>Jamestown, L.P. Atlanta, Georgia August 2013 - Current JMW has worked on several projects with Jamestown including The Flats Apartments, the Service Building and Parcel F Parking Deck, all of which are located at the new Ponce City Market (PCM) in Atlanta, GA. The Flats is over 330,000 sq. ft. of new residential apartments located inside PCM. The service building project involved the conversion of an old parking structure and service center into new retail projects. The Parcel "F" project consisted of two unique projects. The first project was the stabilization and construction of retaining walls. The second phase of construction consisted of the construction of an 8 story, 168,000 sq. ft. cast-in-place concrete parking structure, events space and vertical connection from North Avenue to the Beltline. Currently, JMW is called upon from time to time for smaller, task order work around the site.</p>

1968 - 1971

Jim Wilkerson learned solid values growing up in rural Kansas, graduating from Kansas State University in 1968. He also learned valuable life and construction skills serving three years as an officer in the U.S. Army, Corps of Engineers. After graduating from Kansas State University, he worked for Atlanta-based Holder Construction Company for ten years. He won Holders' coveted Superintendent of the Year Award on two separate occasions, and he appreciated the opportunity to get involved with both large and small projects with such a reputable company.

In 1982, at the age of 35, Jim Wilkerson started J.M. Wilkerson Construction Co., Inc. He has overseen over \$500 million worth of construction in those years. He feels one of his greatest accomplishments has been putting a great team together - one that can manage through good times as well as adversity. Jim Wilkerson has always believed the success of a business depends on the quality and performance of its people. JMW has always prioritized the recruitment of the best quality employees and encourages continuous improvement through training and learning new developments in the industry to improve client satisfaction.

Blue Circle Materials
Estimator/Sales 1996-1999

Austin Pruitt has worked with J.M. Wilkerson Construction Co., Inc. as an estimator, engineer and a quality assurance representative. Pruitt is familiar with the layout software, Surveyors Module International (SMI) and Transit Design Systems (TDS). His knowledge of construction and his ability to coordinate subcontractors makes him a valued member of the J.M. Wilkerson Estimating Department. Austin works with both our Commercial Construction bids and Heavy Construction Departments and leads most estimating for JMW.

Mike Travis has been connected to the construction industry for more than seventeen years. As an Architect, he worked on over a billion dollars worth of construction projects. As a Developer/Owner's Representative, Mike oversaw hundreds of millions of dollars worth of work put in place for private equity teams, facilitating both the design and entitlement processes. Now, as a General Contractor, he has a wealth of knowledge, matched by few. This allows him to act as a bridge between Developer, Design Team and Construction Team. This coordination role has been very valuable during pre-construction and throughout the construction process.

The Imperial Hotel - Restoration / Additions

Atlanta, GA

J.M. Wilkerson Construction Co., Inc. was selected as the general contractor for the interior and exterior renovation/rehab of the existing Imperial Hotel, located in downtown Atlanta, GA.

This 1910 historic hotel, listed in the National Registry, is our second major project with Columbia Residential. The building is approximately 58,780 sq. ft. with 9-Stories. This challenging urban rehabilitation included a complete interior demolition to accommodate the build-out of 90 new residential apartment units. Interior work included finishing out new amenity and public spaces, reception areas, community rooms and management offices. Renovations also included new unit layouts, plumbing, electrical, HVAC, and finishing. Exterior work included restoration of the building along with replacement of all windows, and stabilization of all façade details. This project was awarded LEED Gold certification.

Sweet Auburn Curb Market Renovations & Restoration

Atlanta, GA

J.M. Wilkerson Construction Co., Inc. was selected as the Design / Build contractor for the renovations and restoration of the historic 1924 Sweet Auburn Curb Market, known originally as the Municipal Market of Atlanta, in Atlanta, GA.

Renovations included improvement of the base building systems, the replacement of over 160 tons of HVAC equipment, and the retrofitting of lighting throughout the entire facility. Improvements were made to electrical, plumbing, fire and security systems, as well as the renovation of all restroom facilities. Additional work to the interior included paint throughout the entire facility, as well as cleaning of all ductwork, framing and surfaces. Exterior restoration included all of the exterior façade, overhangs and brick surfaces. This work also included the removal of all non-original steel canopies, removal of paint applied to the historic brick surfaces, as well as, window and door restoration. Concrete repair work along with steel handrails and doorways were also included in the scope of work. All of this work took place while the market remained open. JMW facilitated all drawings, permitting and historic approvals.

309 East College - 2011 Preservation Award

Decatur, GA

J.M. Wilkerson Construction Co., Inc. was selected as the general contractor to reconstruct 309 East College Ave located in Decatur, GA.

This early 1920's retail structure, that sits at one of the main access points to the City of Decatur's downtown district, suffered a major fire in late 2009, leaving the remaining structure in an unsafe condition. JMW worked directly with the owner to assist in insurance settlements and collaborated with the design team for the completion of working drawings and specifications. After sitting for over a year, our teams were able to help kick off the project's re-development. The building was rebuilt using historic details and load bearing masonry walls. Steel and wood timbers made up roof structures and custom built wood storefront window systems mimicked previous window details. This project was completed ahead of schedule, allowing long displaced tenants to begin their operations and reactivate this section of Decatur.

A & P Lofts

Atlanta, GA

J.M. Wilkerson Construction Co., Inc. was commissioned to convert the 881 Memorial Drive building into 60 residential loft apartments in Atlanta, GA.

This building was originally built in the 1930's and served as a base for the Atlantic & Pacific Tea Company (A&P Grocery) southeastern operations and a bakery until 1976. Today, this building is on the Georgia Register of Historic Sites and is officially a local landmark. All construction had to operate within the guidelines set forth by the National Register of Historic Places. Each loft unit is unique and was designed and constructed to enhance the modernistic 1930's architecture of the building. The building includes details such as exposed original brick walls and floors, industrial windows and wide and bright hallways that compliment the buildings soaring ceiling heights. The Owner received historic tax credits for this project.

The Deere Building Lofts

Atlanta, GA

J.M. Wilkerson Construction Co., Inc. was selected as the general contractor for the loft conversion of the historic John Deere Plowing Co. in Atlanta, GA.

Built in 1914, this building was converted into 49 upscale residential loft apartments. The composite of the building was heavy structural timbers that were saved and used to enhance each of the spaces. JMW 's team did a total renovation by clearing the entire interior of the warehouse, adding an elevator and providing parking on the lower level of the building. The Deere Building is a 5 story building with 2 floors below the ground level. The ceilings in the lofts range from 12 to 30 ft., and the sizes of the lofts range from 588 to 1,600 sq. ft. The bottom level of the building is designated for parking and storage used by the residences. This project is located in the historic Castleberry district where JMW has completed over \$30 million in successful projects. The development was completed on-time and within the owners budgets.

Hardman Farm - Phase I Stabilization

Helen, Georgia

J.M. Wilkerson Construction Co., Inc. was the general contractor for Hardman Farm Phase I Stabilization project in Helen, GA.

This project was located on a 170 acre historic farm located in Helen Georgia and consisted of the stabilization of 23 buildings including a 7000 square foot, two story timber framed dairy barn that was leaning to one side by more than 18 inches. Each building was stabilized using period detailing and materials and with the long term preservation of the site in mind. JMW also stabilized a landmark gazebo that was located on the top of an Indian Mound that was believed to have been built between 800 and 1450 A.D. This project was completed on time and within the Georgia Department of Natural Resources budget.

Fairlie-Poplar Lofts

Atlanta, GA

J.M. Wilkerson Construction Co., Inc. converted the historical Fairlie-Poplar retail building into lofts in Atlanta, GA.

The composition of the building consisted of a wood structure with structural steel supports. Whole floor areas were removed to allow for code egress regulations as well as to facilitate structural repairs. All surfaces were replaced with new finishes. The existing windows, that were intact, were refurbished and the new ones were made to resemble the existing windows as requested by the Historical Society.

With close coordination between the owner and architect, the renovations were completed in time for the 1996 Atlanta Olympic Games and qualified the owner for a tax credit from the City of Atlanta. The Fairlie-Poplar project received awards for the Georgia Trust Historical Preservation of the Year as well as Outstanding Rehabilitation Project for the City of Atlanta in 1996.

Building for Generations

J.M. Wilkerson Construction Co., Inc. was the general contractor for this restoration and conversion project in Columbus, GA.

The 4 story building already contained commercial tenants on the ground floor, but the top 3 floors had been boarded up for 25 years. The building required a complete replacement of all systems as well as a new roof and repair and/or replacement of all exterior windows. The corridors were retained in their historic outline with old transoms and doors being retained. The top 3 floors of this building were converted to 18 loft apartments. The apartments range from 730 sq. ft. to 1,800 sq. ft. The lofts have old pressed tin ceiling tiles and skylights incorporated in the design. All work was done under the historic restoration guidelines of the Secretary of the Interior and this project qualified for Historic Rehabilitation Tax Credits.

J.M. Wilkerson Construction Co., Inc. provided all the specialty construction work for the renovation of the old Atlantic Ice and Coal Co. in Decatur, GA.

This historic structure located in Decatur, Georgia had sat vacant for over 15 years. Now known as the Ice House Lofts, the original building was gutted and remodeled to create 8 lofts over a 4,200 sq. ft. restaurant space. Construction of a new 5 story loft build was also completed on the site with 2 levels of parking supporting it. The lofts range from 600 sq. ft. to 1,650 sq. ft. with some having 2 levels. Additional scope included the construction of an amenities package housing a pool, fitness center. JMW's involvement in the project was completed on time and within the budgets set for the project

J.M. Wilkerson was selected as the general contractor for the renovation and adaptive reuse project that included the combination of 3 buildings renovated into 29 loft apartments on Peters Street in Atlanta, GA.

The Swift & Co. Lofts, built in the early 1930's, sat for years under-used and in disrepair. The buildings include brick walls, industrial columns and large windows. The floor plan includes 10, two-level townhomes and 19 flats. Select lofts open onto the courtyard and other lofts have private rooftop decks. The old elevator shafts were opened into a stair tower that links all floors together. This complex project included some historic restoration as well as utilization of existing structure and spaces. It was completed on time and within the owners budgets.

Ponce City Market Service Building

Atlanta, Georgia

JM. Wilkerson was selected to provide construction services for the adaptive-re-use of the old Sears Service Building located on the corner of North Ave and Glen Iris in Atlanta, GA.

The project involved the conversion of an old parking structure and service center into a new and vibrant retail project adjacent to the Ponce City Market building. With over 52,000 sq. ft. of retail and 48,000 sq. ft. of parking, this project helps to anchor the corner of the Ponce City Market site. Additionally, the project included the shell space for a 23,000 sq. ft. urban school. The service building's scope of work included the restoration and placement of new concrete structures as well as the finishing out of sales centers and retail locations along North Ave. Other portions of the retail areas were delivered as shell space. Waterproofing of existing basement walls and the installation of a catchment basin was also completed. This was a complex project requiring completion while new tenants opened their companies and were active for business. Additionally, the project was completed as part of the total Ponce City Market package requiring extensive coordination with multiple teams.

Building for Generations

J.M Wilkerson Construction Co., Inc. was selected by Middle Street Partners as their General Contractor for the 1015 Boulevard project located just south of the Zoo and Grant Park in Atlanta, GA.

This new 233,791 square foot mixed use development includes a 2 level basement parking excavation with 5 levels of wood frame residential construction on top. There is 5,000 square feet of retail space as well as building access along this newly developing West Side Beltline trail that will create new exciting public spaces.

This creative plan incorporates two amenities courts, one with a pool and club room break out space and a second developed as a motor court suitable for drop-off and pick-up of urban ride share teams. With 323 units outlined in a mixture of unit sizes, this project will have a great level of activity helping to anchor its place along Boulevard and the Beltline Trail. The JMW teams are targeted to complete this project in early 2023.

Wheat Street Towers

Atlanta, Georgia

J.M. Wilkerson Construction Co., Inc. was selected as the General Contractor for the renovations of the Wheat Street Towers in Atlanta, GA.

This project is a renovation of an existing 208 unit, 14 story apartment tower located on Auburn Avenue, in the Martin Luther King Jr. historic district of Atlanta. The renovation is targeted for elderly housing. There are no building height modifications and no modifications to the existing structural system.

Interior work included the renovation of the units and common spaces, replacing HVAC equipment, water piping and fixtures, interior finishes, window replacements, electrical wiring and fixtures. Exterior work was limited to window replacement, painting of the existing façade, new roof and adding a trellis to the west façade. Site work was limited to resurfacing the parking areas, providing a new dumpster pad, new fencing, new site furnishings, new generator and landscaping. No grading was required. This was a HUD project and all the protocols were executed according to HUD.

Juniper & 10th High-Rise Renovation

Atlanta, Georgia

J.M Wilkerson Construction Co., Inc. was selected as the General Contractor for the renovations of the Juniper & 10th high-rise in Atlanta, GA.

This Senior Housing rehab is located on the corner of Juniper and 10th Ave., right in the heart of Midtown, Atlanta. The very tight site is less than .66 of an acre and includes a 14 story, 149 unit building totaling about 101,000 square feet of heated space. The scopes covered all public spaces, dwelling units, offices and site amenities. Additional project scope included the removal and replacement of the building's exterior skin, windows and all roofing materials. The new exterior skin and wall system was comprised of a new 6" metal stud system faced with a fluid applied water proofing and EIFS skin. All building systems were updated throughout with the removal and replacement of all Mechanical, Electrical and Plumbing systems. Life safety upgrades included new Fire alarm, sprinkler system, pressurizations of stairwells and back-up generators. Site and infrastructure work surrounding this site involved storm water detention and new exterior public spaces.

JMW was awarded the renovation and conversion of the 4,300 sq. ft. Westminster School Innovations Space. The existing classroom areas were demolished and reconfigured into new larger classrooms for the use of a space/robotics lab. The scope of work included, but was not limited to, selective demo of metal studs/gyp framing, acoustical ceiling tile and grid demo of doors and flooring. Minor structural modifications along with new wall partitions, doors operable storefront windows, lights, floor finishes, siding ceilings, ductwork, cabinets and mill work were also completed.

Building for Generations

J.M. Wilkerson Construction Co., Inc. served as the general contractor for this renovation and addition project in Atlanta, GA.

The scope of work for this project included the interior demolition of an existing two story office space and the construction of new interiors to accommodate a 22,000 sq. ft. private school. The project featured the addition of a new exterior stairway, state of the art classrooms, laboratory space and performing arts room with AV functions throughout. This project incorporated unique interiors, utilizing bright colors, storefront garage door systems for wall partitions and custom millwork designed to be used as part of the performing arts program. Integration of the new exterior stair to the existing building allowed the teams to connect the two pre-existing floor plates unifying the overall flow of the student population.

Contract Amount

\$1.6 Million

J.M. Wilkerson Construction Co., Inc. was the general contractor for this sports arena and sports annex that served as the 1996 Olympic Badminton Venue in Atlanta, GA.

The scope of work for this project integrated extensive demolition, including the slab on grade and drilling into the existing pile caps in order to support the two level addition. All work was performed by hand, as it was located within the confines of the existing building, requiring all materials to be brought through the existing narrow entrance way. JMW poured two elevated slabs and blocked in the exterior wall facing the pool. In the existing gym, new flooring and lighting were installed, and the facility was repainted for the Olympics. All rollaway bleachers were refinished, as well.

Building for Generations

J.M. Wilkerson Construction Co., Inc. was selected to complete the renovation, restoration, and additions to the historic 1926 Dobbs classroom building, located on the campus of Reinhardt College in Waleska, Georgia.

This challenging project included the renovation of all interior rooms, as well as exterior windows, building elevations and the surrounding site. New additions included labs, classroom spaces, and lecture halls. New entryways were completed along with site modifications to provide better access for students and faculty. The project was completed within the six month schedule and within the college's budget. This was one of six projects that the JMW teams completed on behalf of Reinhardt College.

Compelling Reason To Choose J.M. Wilkerson Construction

What JMW Brings to the Table:

- Long standing history of successful construction.
- Team has years of diverse construction experience.
- Understanding of large and small projects.
- Extensive background in both Commercial and Heavy Construction.
- Sound financial and staffing history.
- JMW's team will devote partner level staff participation throughout the entire development and construction process.
- Available and talented staffing ready to participate.
- Necessary bonding, safety and construction licenses to participate.

J.M. Wilkerson Construction possess the necessary skills and expertise to provide a well coordinated, cost effective solution meeting all of the needs of this project. What we really bring to the table is a team steeped with years of construction experience. We have never failed to complete a project and commit ourselves to deliver the highest quality project possible.

At J.M. Wilkerson we pride ourselves on our communication. To communicate clearly, as well as to document those decisions, is an essential component of every successful project. Portraying our message in written and visual formats is key, but equally important are the people delivering the message. We select a team of experts at a Principal level to execute each project according to the scope of work. JMW takes care at the beginning of each project to assign a team of staff who are best qualified to deliver the best service to our client. We value our clients and allocate staff thoughtfully. The team will be in place from pre-construction until the punch-list phase. The employees of JMW have decades of experience both in the office and in the field. Our people are our biggest asset and deliver outstanding quality for the most competitive price.

Thank you for the opportunity to submit our team's qualifications, please do not hesitate to contact anyone listed with questions or additional information needed for your team's assessment of our company.
