### *Our Mission*

J.M. Wilkerson Construction's mission is to manage the construction process to ensure we give our clients more value than expected in Quality Assurance, Cost Control, Schedule, Performance, Working Relationship and Safety.

Jim Wilkerson  
Owner/Chairman

- The JMW commitment extends beyond the construction process. We strive to earn your trust. Trust is the foundation to all successful working relationships.
- We perform our work with integrity. Our word is our commitment, and we never waiver from a commitment we make.
- We take ownership of a challenge. Challenges are inevitable, therefore, we admit our mistakes and take corrective action to ensure a positive end result.
- We work hard to exceed your expectations. This is our mission and our commitment to you.

J.M. Wilkerson Construction seeks long term involvement with our clients. Repeat business from satisfied clients is critical to our success. As partners in the construction process, we work together to reach common goals.

# Firm Description

**Building for Generations**

## Company Information

J.M. Wilkerson Construction Co., Inc.  
1734 Sands Place - Marietta, Georgia 30067  
Primary Contact - Mike Travis  
Telephone: 770.953.2659 Fax: 770.933.9665  
E-mail: [mtravis@jmwilkerson.com](mailto:mtravis@jmwilkerson.com)  
Website: [www.jmwilkerson.com](http://www.jmwilkerson.com)

- J.M. Wilkerson has been in Business for over 39 years
- Ownership - Corporation
- State of Residency / Incorporation - Georgia
- Office Location - Marietta, Georgia

Hotel Indigo - Athens, Georgia

Established in 1982 by Jim Wilkerson, J.M. Wilkerson Construction provided tenant interior renovations before expanding into industrial, office, institutional and concrete work. Today, JMW provides a wide array of services and has experience in many building types including, but not limited to, multi-family, historic renovation / adaptive reuse, industrial, tenant interiors, retail, religious, institutional, transportation, hospitality, concrete, rail and environmental projects. Our mixture of commercial and heavy/industrial projects is unique in the Southeastern markets.

The ability to provide services to both major market sectors, allows our teams to work on a wide array of projects. When it benefits a project, JMW can perform sub-contracting work in-house, providing a single source of responsibility and management. This frequently adds genuine value to our team and provides the client with greater protection. JMW's steady growth is based on the continued commitment of Mr. Wilkerson and his employees to provide personal attention and exceptional service to each client. Mr. Wilkerson takes pride in his organization and plays an active role in every project JMW undertakes. This family owned business works hard to maintain its quality and talented staff, many of whom have been with the company for over 39 years.

JMW's President and CEO is Brett Hawley. Brett joined the team in 1994, moving from Kansas City, MO to Georgia. His extensive knowledge in heavy construction complemented JMW's already broad experience base. Brett brought not only heavy civil and construction backgrounds, but commercial, hospitality and estimating knowledge, as well. Brett has helped the JMW team grow many new market sectors providing additional experience for future jobs.

JMW's Vice Presidents are Austin Pruitt, Michael Travis and Chris Griffeth. Austin Pruitt has worked with JMW in various roles and is now the Chief Estimator. Pruitt's knowledge of construction, estimating, and his ability to coordinate subcontractors makes him a valued member of the JMW Estimating Department. Austin works with both our Commercial Construction bids and Heavy Construction Departments and leads most estimating for JMW.

Mike Travis is the leader of the JMW Business Development department. He has been connected to the Design, Construction and Development industry for more than twenty years. As an architect graduating from the University of Oklahoma, he helped to execute and manage over a billion dollars in projects with teams like RTKL, Perkins Will and Smallwood Reynolds Stewart Stewart. His background in architecture, development and construction is critical to JMW's pre-construction efforts and new business pursuits.

As one of JMW's most accomplished project managers, Chris Griffeth has worked on all types of projects and has been with the JMW team for over 10 years. Possessing many strengths in his management, Chris has become quite successful in the administration of HUD or federally funded as well as task order or on-call projects. He has successfully completed multiple projects for the Atlanta Housing Authority, City of Atlanta as well as Federal and Military agencies.

**Building for Generations**

## Services

J. M. Wilkerson Construction offers a well-rounded array of construction services in the following areas:

### Pre-Construction Services

Planning and Procurement  
Design Review & Value Analysis  
Budget and Cost Estimation  
Value Engineering  
Building Information Modeling (BIM)  
LEED or Sustainable Construction Review  
Design / Build  
Scheduling

### Construction Services

Project Management  
Cost Control  
CM @ Risk  
General Construction  
Sustainable Construction  
Environmental Construction  
Heavy /Civil / Concrete Construction  
Site & Grading

We take great pride in giving our clients more value than they expect, and to that end, dedicate ourselves to constructing the highest quality product available. Just as significant, are the relationships we develop along the way.

We strive to establish a healthy, respectful relationship that will help us provide the highest level of service, which will continue in the years ahead. This philosophy has remained a consistent thread throughout JMW's 39 years in operation, allowing us to continue "Building for Generations".

J5 - New Luxury Housing

Avondale Hills - New Construction

Hotel Indigo in Athens, GA - LEED Gold

MARTA Grout Pockets - Heavy Construction

**Building for Generations**

## Green Building Experience

The philosophy of sustainability has become a major focus to many owners. This philosophy has also been embraced by both design and construction professionals across the country. With this new emphasis to provide more efficient buildings and practice more sustainable construction, the development of new operating procedures has become essential. The teams at J.M. Wilkerson Construction have been responsible for the construction of over \$97.6 million in completed LEED (Leadership in Energy and Environmental Design) or sustainable projects. These projects have included residential, commercial and industrial types of construction, covering over 225,364 square feet of area.

With this relatively new type of design and construction, our teams have made great strides in obtaining the necessary skills to both document and execute sustainable projects of this type. With LEED accredited professionals on staff at JMW, we have created detailed procedures for tracking projects from creation through implementation. Our teams have been able to achieve tremendous success with respect to sustainability goals on behalf of our owners.

The process and execution of a sustainable project is greatly dependent on the communication skills and involvement of both the design and construction professionals. The earlier these teams begin to review the level of sustainability an owner seeks to achieve, the greater the chances for success. In addition, the decision to develop a sustainable project requires a team to closely review the type of materials specified, the construction staging proposed, the electrical and plumbing designs, as well as, the smaller details throughout the facility.

Our construction teams make every effort to perform and practice sustainability on every project. We work hard to divert construction waste from landfills, and to employ the use of local and recycled materials where possible. We have developed comprehensive Waste Management and Indoor Air Quality Programs, as well as, tracking forms necessary to maintain accurate records for the filing and recording of sustainable data.

In 2009, J.M. Wilkerson Construction won the Sustainability Practice award at the AGC Build Georgia Awards. AGC selected the DeKalb County Central Transfer Station, completed by our teams in 2008. This LEED Certified facility was delivered for just under \$25 million and was one of DeKalb County's first major LEED projects. The facility was situated on an existing brown field and required the removal of over 100,000 cubic yards of unsuitable material and incorporated both industrial and office building structures. The project was completed 4 months ahead of schedule with no owner change orders. More recently completed projects incorporating LEED or sustainable construction practices include the Indigo Hotel located in Athens, GA, CHRIS Kids located in Atlanta, GA, and Charlottetown Terrace located in Charlotte, NC.

Over 1532 tons of waste diverted  
On Hotel Indigo - Athens, GA

Deepdene Park Restoration - Atlanta, GA

With the completion of the 93,477 square foot Indigo Hotel, J.M. Wilkerson Construction made history completing the 9th LEED Gold hotel worldwide. This was also the first hotel for Intercontinental Hotels Group (IHG) to reach a GOLD rating within their 4,400 hotels worldwide. This project diverted over 1,600 tons of construction waste from landfills and was constructed in only 12 months. This project won J.M. Wilkerson Construction the 2010 Sustainable Practice award from the AGC, as well as, a ULI award of Excellence.

J.M. Wilkerson Construction was also awarded The Affordable Housing Builder of the Year for Earthcraft Multi-family 2010. This award was presented for work on the CHRIS Kids project. This multi-family housing development devoted to help young adults from prior foster care situations, and was the first of a two-phase project. The award was presented by the Southface Energy Institute and was one of the first Builders Challenge multi-family projects recognized by the U.S. Department of Energy.

The \$11 million LEED Gold Affordable Housing project, Charlottetown Terrace, located adjacent to downtown Charlotte, was completed on time and within the authorities budget by the JMW team as a Construction Manager at Risk.

Charlottetown Terrace had a complex commissioning process where the owners managed the overall process but utilized both outside commissioning agents, as well as, our own team LEED AP to provide the necessary documentation and activities to reach their goal.

We worked with the Charlotte Housing Authorities to set up regularly scheduled meetings where commissioning was outlined, defining roles of responsibility. Team members were assigned specific scopes of work required to reach the LEED goals. JMW was assigned direct commissioning responsibilities that included the coordination and verification of many aspects of the enhanced commissioning process. Our team also provided direct assistance on all final training and verifications, as required by the commissioning process.

Both field and office staff provided reports, submittals and RFI's to the owner's commissioning team. Any changes in the construction documents or material selections required specific reporting to maintain accurate accounts of where the project stood. JMW's team was directly responsible for this coordination with the design team.

We provided all verification for materials, recycling, installation methods and waste reporting. We shared the responsibility with the rest of the owner's team that construction was in-line with the commissioning agent's base building design model. Commissioning meetings and inspections were pro-actively scheduled to include all major milestones for HVAC installation, lighting, roofing, and items that affected the base energy model set by the team.

Other sustainable construction experiences included working with teams like Energy Ace and DeKalb County's LEED consultants for the Indigo Hotel and DeKalb County Transfer Station. Each project had its own unique twist on the Commissioning process but was formatted in a more conventional Owner, Contractor, LEED consultant role. Our LEED and sustainable background offers great benefit and experience to meet the needs of any project.

### JMW Teams have Successfully completed more than \$97.6 Million in LEED projects

- Indigo Hotel, Athens, GA - \$15.1 Million - LEED Gold
- DeKalb County Central Transfer Station & Administrative Headquarters - \$24.3 Million - LEED Certified
- CHRIS Kids, Atlanta, GA - \$4.8 Million
- Charlottetown Terrace, Charlotte, NC - \$11.1 Million - LEED Gold
- Imperial Hotel (Historic Affordable Housing Project - \$11 Million - LEED Multi-Family
- Lafayette Sustainable Housing Developments - \$5.7 Million
- Ponce City Market, Atlanta, GA - \$25.6 Million - LEED Silver

J.M. Wilkerson Construction is committed to the execution of innovative and challenging projects. We have made the commitment to provide the highest level of service combined with thoughtful and responsible construction practices.

## Building Information Modeling (BIM)

J.M. Wilkerson Construction utilizes Building Information Modeling (BIM) software on almost every project. Understanding the importance of this new technology for our industry, we have devoted full time employees to the development of its benefits, creating BIM models for pricing, clarification and review. In addition, we now work with our clients and design teams developing models that show Conceptual, Marketing, Estimating, Design, Logistical, As-Built Conditions, and Facility Management.

BIM creates a dynamic 3D model of a project which aids in the concept, design, and construction process. It does this through the use of object driven data which includes building geometry, spatial relationships, geographical information, quantities, and the properties of building components. This allows us to visualize, coordinate, predict costs, resolve conflicts, and extract data, before we actually start the construction process. Also, with advances in technology and software, BIM allows us to branch out into 4D encompassing time and scheduling, and into 5D integrating estimating and cost.

BIM has become a major part of our process from the pre-construction phase through final closeout, enabling the owners, design team, and construction team to see the project in a 3D digital model, during all phases of construction. Being able to visualize the project at the conceptual phase, allows us to plan budgets, logistics, and phasing, as well as, to define the scope of work for the individual trades, scheduling around any conflicts seen in the model. This helps reduce costs that may have required rework, change orders, RFI's, and delays to the project.

Using BIM's expansive databases for both quantities and material take-offs, creates a more accurate estimate and aids in the purchasing process. Once under construction, BIM enables the construction managers to better understand the design and accurately plan the remaining steps. It also enables our onsite managers to track the construction schedule through its use of project phasing. Also by tracking changes throughout the project, BIM provides a more comprehensive set of as-built drawings, allowing the end user to manage the facility with a detailed understanding of what was put in place during the construction process.

We strive to contract with Sub-contractors who have BIM resources, but often need to supplement their capabilities with our own expertise. If required by the owner or the project specifications, we will create as-built files that incorporate all structural, mechanical and electrical trades. This tool has become a critical step in our recent success with our sub-contractors, using it on many significant projects.

JMW utilizes the following programs:

- Revit Architecture
- Revit Structure
- Revit MEP
- Auto CAD Civil 3D
- 3DS Max Design
- Navis Works
- QTO
- Auto CAD (Full Suite)

GSU (BIM) Study - Atlanta, GA

## Conceptual Models

JMW creates Conceptual Models during the design phase of a project. Our team works with owners and designers to assist in site layouts, test fitting of buildings, orientation, access and many other design related issues. With this model, we can establish early pricing and value engineering, as well.

Conceptual Models provide the owner with marketing or fundraising materials suitable for add campaigns, project interest, and potential investors. JMW has created dozens of models of this type and provides this as part of our basic services on all Design/Build projects.

## Clarification Models

Clarification Models are smaller models that outline a specific detail or area of a project. Many projects have a signature element or a highly detailed area that is a visual focal point. We can create a Clarification Model to highlight the details of this specific area for the owner, sub-contractors and construction team. These small, critical models have helped to reduce the number of RFI's and provided needed clarity, reducing the number of questions submitted on our jobs.

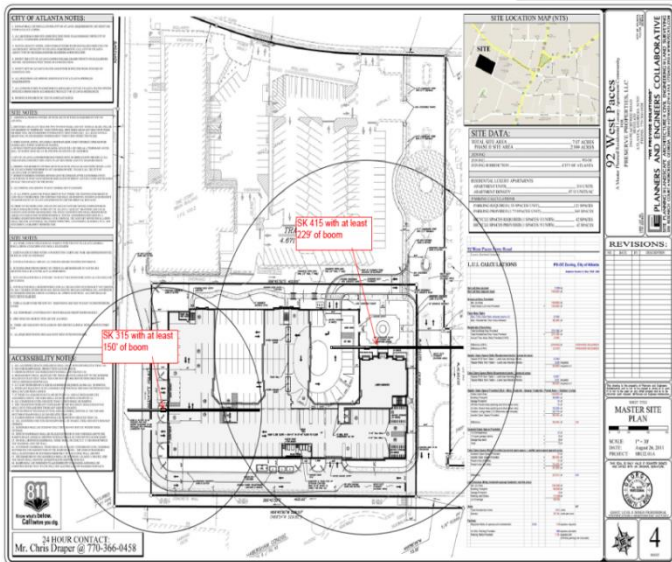

## Logistics Models

Logistics Models provide our teams with the ability to stage a project and develop the process for material staging, access, hoisting, phasing of work, and safety. Any job with site complexity will require a well-orchestrated Logistics Model. BIM will aid in this development and help streamline the process, as well as, save costs.

Benefits of BIM Logistics Models:

- Development of Access Plans
- Development of Safety Plans
- Positioning of Layout Areas and Lifting Zones
- Phasing or Sequencing Study Review
- Possible Value Engineering

### PHASE III

PHASE III WILL NOT BE STARTED UNTIL PHASE II IS COMPLETED AND ANY PERSONNEL, STORAGE, OR INVENTORY CAN BE RELOCATED TO EITHER THE NEW EXPANSION OR THE NEWLY RENOVATED PORTIONS OF THE EXISTING BUILDING. IT IS THE INTENTION OF J.M. WILKERSON CONSTRUCTION TO COMPLETE THIS PHASE IN 28 DAYS. THIS PHASE CONSIST RELOCATING TRAINING EQUIPMENT, DEMOLISHING EXISTING WALLS AND CONSTRUCTION NEW ONES TO RECONFIGURE OFFICE, TRAINING, AND CONFERENCE ROOM AREAS. THIS PHASE ALSO CONSIST OF RECONFIGURING THE RECEPTION AREA WHICH IS PLANNED TO TAKE PLACE OVER A SCHEDULED WEEKEND.

**Building for Generations**

## Personnel Capability

J.M. Wilkerson Construction's commitment to its employees has stayed strong throughout the company's history. JMW currently has over 115 employees. Located at our home office are 16 employees providing project and company management, as well as, estimating, accounting, marketing and administrative activities. Located in the field, providing supervision, are 19 employees. For additional detail see the break down below.

Home Office - 16  
Project Engineers - 3

Superintendents - 19  
Foremen - 8

Craftworkers - 34  
Laborers/Helpers - 35

## Safety Information

Safety in all of J.M. Wilkerson Construction's operations is not only a company goal, but a requirement. We create a culture in which safety is a core value. Our commitment is to provide a safe and productive environment for everyone involved with our projects. At no time will safety be compromised because of cost. OSHA standards are met or exceeded at all times.

It is JMW's belief that accidents can be prevented through planning, training and a cooperative effort in all areas of our operations, with our goal being to eliminate all injuries. This goal is accomplished by the following safe working practices on all of our construction sites.

The project managers, superintendents, foremen and safety manager have full support of management in enforcing the provisions of our Safety Policy, as it relates to the responsibilities assigned to them. Prior to start of work, each trade attends a preparatory meeting to discuss the scope of work, its hazards and controls.

Our superintendents and foreman are required to keep their safety training and education current. Each superintendent conducts weekly site safety meetings and inspections. We also utilize available safety resources such as the AGC's Site Safety Training Programs and the Construction Safety Competency Training courses.

JMW is a Drug Free Workplace, certified by the GA Workers Compensation Board.

### Required Supervisor Training

OSHA 30 Hour  
CPR / First Aid  
Confined Space Entry  
Fall Protection  
Scaffold Training  
Trench / Excavation Training

### Site Safety Items

New Hire Safety Orientation Training  
Site Safety Orientation  
Drug Free Workplace and Testing  
Safety Control System  
Preparatory Meetings

Hartsfield Jackson - Atlanta, GA

## Industry Affiliations, Memberships, Awards & Honors

Over the years, J.M. Wilkerson Construction has successfully completed many general construction projects for Federal, State, local and private clients. We have completed new construction, adaptive-reuse, historic rehabilitation, environmental, heavy civil, concrete, religious, industrial and tenant work. We pride ourselves on providing only the highest quality services, using the most professional teams possible. Over this history, JMW has been awarded many accolades for their services and successful completion of projects. These awards prove that team work help to make even the most challenging projects accomplishable. Listed below are only a few of the many awards and honors JMW has received.

- 2020 AGC Build Georgia Awards First Place – Bethel Tower Renovation & South Fork Pedestrian Bridge
- 2019 AGC Build Georgia Awards First Place – Wheat Street Tower
- 2018 AGC Build Georgia Awards First Place – Studioplex Commercial Podium
- 2017 AGC Build Georgia Awards First Place – Studioplex Parking Deck, Lake Blackshear Resort Renovations & Juniper & Tenth Renovations
- 2016 AGC Build Georgia Awards First Place/Best Sustainable Building Practices – Ponce City Market – Parcel F Deck, Atlanta Beltline North Avenue Plaza & Lockheed Martin B1 Emergency Stairwell Egress
- 2016 ACI First Place in the Parking Deck Category – Ponce City Market Parcel F Parking Deck
- 2015: AGC Build Georgia Awards First Place – Ponce City Market – The Flats, GA Trust preservation Award for Excellence in Sustainable Rehabilitation – Imperial Hotel
- 2014: AGC Build Georgia Awards First Place - Imperial Hotel, Urban Design Commission Awards Of Excellence First Place - Imperial Hotel, National Housing & Rehabilitation Association Awards Best Historic Renovation using Tax Credits Finalist - Imperial Hotel, Atlanta Regional Commission's Development of Excellence Award - Imperial Hotel, Edson Award for Tax Credit Excellence - Imperial Hotel, NALHFA Exemplary Project - Imperial Hotel, AIA Atlanta Honor Award for Residential Design - Imperial Hotel, APAB Award of Excellence - Imperial Hotel, Preservation's Best Award - Imperial Hotel
- 2013: AGC Build Georgia Awards First Place – The Sweet Auburn Curb Market – Restoration, AGC Build Georgia Awards First Place Best Sustainable Practices – The Sweet Auburn Curb Market – Restoration, Urban Design Commission Awards of Excellence Award First Place – The Sweet Auburn Curb Market - Restoration
- 2012: Non-Profit Building and Design Award from USBGC Charlotte Region Chapter, 2012 Sustainable Business Awards - Charlottetown Terrace, Apartment Renovation of the Year from Multi-Family Executive - Charlottetown Terrace, Green Project of the Year from Multi-Family Executive - Charlottetown Terrace, Design/Build Award Runner Up from DBIA Southeast Region - Hartwell City Hall, Design Award from the City of Decatur - 313 E. College Avenue
- 2011: AGC Build Georgia Awards First Place - CHRIS Kids
- 2010: AGC Build Georgia Awards First Place - Rialto Room, AGC Build Georgia Awards First Place - Hotel Indigo, Athens, GA, AGC Build Georgia Awards First Place - Peachtree Creek Slope Stabilization
- 2009: AGC Build Georgia Awards First Place - Castleberry Point Lofts, AGC Build Georgia Awards First Place - DeKalb County Central Transfer Station, AGC Build Georgia Sustainability Award - DeKalb County Central Transfer Station
- 2008: AGC Build Georgia Awards First Place - MARTA Fare Barriers, AGC Merit Build GA Award - Renaissance Walk at Sweet Auburn
- 2007: First Place Award in the Specialty Category from the American Concrete Institute (ACI) – Brook Run Skate Park, AGC Build Georgia Awards First Place - Georgia National Cemetery
- 2006: AGC Build Georgia Awards First Place - Hardman Farm Phase I Stabilization
- 2004: AGC Build Georgia Awards First Place - Holy Transfiguration Greek Orthodox Church
- 2003: First Place Award from the American Concrete Institute (ACI) - Bus Lot Reconstruction for MARTA Laredo Bus Facility
- 1999: Award of Excellence from the American Concrete Institute (ACI) – Stone Mountain Lake Spillway Replacement, Award of Excellence for Adaptive Use from the Atlanta Urban Design Commission – Swift & Co. Lofts
- 1997 First Place Award in the Mid-Rise Category from the American Concrete Institute (ACI) – The University of Georgia Chemistry Annex Building

Dates of Service	August 2013 - 2019
Project Description	JMW has worked on several projects with Jamestown including The Flats Apartments, the Service Building and Parcel F Parking Deck, all of which are located at the new Ponce City Market (PCM) in Atlanta, GA. The Flats is over 330,000 sq. ft. of new residential apartments located inside PCM. The service building project involved the conversion of an old parking structure and service center into new retail projects. The Parcel "F" project consisted of two unique projects. The first project was the stabilization and construction of retaining walls. The second phase of construction consisted of the construction of an 8 story, 168,000 sq. ft. cast-in-place concrete parking structure, events space and vertical connection from North Avenue to the Beltline. Currently, JMW is called upon from time to time for smaller, task order work around the site.

Superintendent 1972 – 1981

U. S. Army  
1<sup>st</sup> Lieutenant,  
Corps of Engineers  
1968 - 1971

Jim Wilkerson learned solid values growing up in rural Kansas, graduating from Kansas State University in 1968. He also learned valuable life and construction skills serving three years as an officer in the U.S. Army, Corps of Engineers. After graduating from Kansas State University, he worked for Atlanta-based Holder Construction Company for ten years. He won Holders' coveted Superintendent of the Year Award on two separate occasions, and he appreciated the opportunity to get involved with both large and small projects with such a reputable company.

In 1982, at the age of 35, Jim Wilkerson started J.M. Wilkerson Construction Co., Inc. He has overseen over \$500 million worth of construction in those years. He feels one of his greatest accomplishments has been putting a great team together - one that can manage through good times as well as adversity. Jim Wilkerson has always believed the success of a business depends on the quality and performance of its people. JMW has always prioritized the recruitment of the best quality employees and encourages continuous improvement through training and learning new developments in the industry to improve client satisfaction.

Mike Travis has been connected to the construction industry for more than seventeen years. As an Architect, he worked on over a billion dollars worth of construction projects. As a Developer/Owner's Representative, Mike oversaw hundreds of millions of dollars worth of work put in place for private equity teams, facilitating both the design and entitlement processes. Now, as a General Contractor, he has a wealth of knowledge, matched by few. This allows him to act as a bridge between Developer, Design Team and Construction Team. This coordination role has been very valuable during pre-construction and throughout the construction process.

# Lake Blackshear Resort Rehabilitation

Cordele, Georgia

J.M. Wilkerson Construction Co., Inc. served as the general contractor for the Lake Blackshear Resort in Cordele, GA.

The Lake Blackshear Resort project is an approximately 65,000 sq. ft. resort located on Georgia Veterans Memorial Park. The first building in need of renovation was a one story space, used primarily as a conference center. The other building was a 3 story lodge. The scope of work included new finishes and drop ceiling in the conference center as well as replacing windows/window sills. It also included new finishes, indoor pool fill-in, balcony demolition, reskinning the exterior, new windows, and various other renovation items in the lodge. This project finally included new finishes and windows in 8 individual villas.

# Ponce City Market Service Building

Atlanta, Georgia

JM. Wilkerson was selected to provide construction services for the adaptive-re-use of the old Sears Service Building located on the corner of North Ave and Glen Iris in Atlanta, GA.

The project involved the conversion of an old parking structure and service center into a new and vibrant retail project adjacent to the Ponce City Market building. With over 52,000 sq. ft. of retail and 48,000 sq. ft. of parking, this project helps to anchor the corner of the Ponce City Market site. Additionally, the project included the shell space for a 23,000 sq. ft. urban school. The service building's scope of work included the restoration and placement of new concrete structures as well as the finishing out of sales centers and retail locations along North Ave. Other portions of the retail areas were delivered as shell space. Waterproofing of existing basement walls and the installation of a catchment basin was also completed. This was a complex project requiring completion while new tenants opened their companies and were active for business. Additionally, the project was completed as part of the total Ponce City Market package requiring extensive coordination with multiple teams.

# Braelinn Village

Peachtree City, GA

J.M. Wilkerson Construction Co., Inc. was selected as the general contractor for the redevelopment of the Braelinn Village Shopping Center located in Peachtree City, GA.

This complex renovation consisted of the total replacement of over 2,000 feet of existing wall façade including new framing, brick, EIFS and storefront window systems. Additional scope included over 240,000 sq. ft. of roof replacement, extensive site work and paving throughout. New landscaping and public pedestrian areas were also created to enhance the public shopping experience. The exterior renovation included the addition of 18 helical piers ranging in depths from 39 to 120 feet, all of which were installed inside open businesses, during normal business hours. This project was completed in phases to maintain access for tenants and patrons.

**Building for Generations**

J.M. Wilkerson Construction Co., Inc. was selected as the General Contractor for renovations to the Doubletree Hotel Buckhead, located in Atlanta, GA.

Renovations will take place throughout the entire facility in ongoing phases. Phases 1 and 2, which are now complete, of this complex project included total renovations to the lobby, bar, sales center and public spaces. Phase 3, included the total renovation of 230 guest rooms and corridors. The complex renovation of this urban hospitality project took place while the facility remained open, occupied and ready for business. JMW understands the importance of maintaining a low profile during renovations in a hotel and work hard to maintain a professional environment for all visiting guests.

# Hotel Indigo - LEED "Gold"

Athens, GA

J.M. Wilkerson Construction Co., Inc. was the general contractor for the Hotel Indigo located in Athens, GA.

This project included the new construction of a five story 93,447 sq. ft. boutique hotel. The structure is a hybrid of post tension concrete, load bearing masonry and hollow core plank construction. This 130 guest room hotel is the first LEED-Gold hotel for IHG and the 9<sup>th</sup> LEED-Gold hotel in the world. The project diverted over 1,532 tons of waste, used over 46% of locally produced materials, saved more than 30% of its water usage over similar projects and used over 28% of recycled content. JMW completed this complex project on time and within budget .

# 1015 Boulevard

Atlanta, Georgia

J.M Wilkerson Construction Co., Inc. was selected by Middle Street Partners as their General Contractor for the 1015 Boulevard project located just south of the Zoo and Grant Park in Atlanta, GA.

This new 233,791 square foot mixed use development includes a 2 level basement parking excavation with 5 levels of wood frame residential construction on top. There is 5,000 square feet of retail space as well as building access along this newly developing West Side Beltline trail that will create new exciting public spaces.

This creative plan incorporates two amenities courts, one with a pool and club room break out space and a second developed as a motor court suitable for drop-off and pick-up of urban ride share teams. With 323 units outlined in a mixture of unit sizes, this project will have a great level of activity helping to anchor its place along Boulevard and the Beltline Trail. The JMW teams are targeted to complete this project in early 2023.

**Building for Generations**

J.M. Wilkerson Construction Co., Inc. was selected as the General Contractor for the Intrada Westside project in Atlanta, GA.

The scope of work entails the demolition of an existing structure, re-grading of the site and the new construction of a 4 story apartment building with a partial basement that contains 143 total units. The first floor contains an approximately 9,000 square foot incidental leased space unfinished "gray box" with the intent for the leased space to infill as a mercantile. Each floor contains a community space and laundry room. The first floor contains a community room along with leasing offices and restrooms. There will be two elevators and 3 stair towers serving the residential portion of the building, two stair towers are enclosed and one stair tower is exposed to the exterior. The project in entirety is classified as a VA Building and is sprinkled conforming to NFPA 13. It will also adhere to DCA regulations.

Atlanta, Georgia

J.M. Wilkerson Construction Co., Inc. was selected as the General Contractor for the renovations of the Wheat Street Towers in Atlanta, GA.

This project is a renovation of an existing 208 unit, 14 story apartment tower located on Auburn Avenue, in the Martin Luther King Jr. historic district of Atlanta. The renovation is targeted for elderly housing. There are no building height modifications and no modifications to the existing structural system.

Interior work included the renovation of the units and common spaces, replacing HVAC equipment, water piping and fixtures, interior finishes, window replacements, electrical wiring and fixtures. Exterior work was limited to window replacement, painting of the existing façade, new roof and adding a trellis to the west façade. Site work was limited to resurfacing the parking areas, providing a new dumpster pad, new fencing, new site furnishings, new generator and landscaping. No grading was required. This was a HUD project and all the protocols were executed according to HUD.

# Juniper & 10th High-Rise Renovation

Atlanta, Georgia

J.M. Wilkerson Construction Co., Inc. was selected as the General Contractor for the renovations of the Juniper & 10th high-rise in Atlanta, GA.

This Senior Housing rehab is located on the corner of Juniper and 10th Ave., right in the heart of Midtown, Atlanta. The very tight site is less than .66 of an acre and includes a 14 story, 149 unit building totaling about 101,000 square feet of heated space. The scopes covered all public spaces, dwelling units, offices and site amenities. Additional project scope included the removal and replacement of the building's exterior skin, windows and all roofing materials. The new exterior skin and wall system was comprised of a new 6" metal stud system faced with a fluid applied water proofing and EIFS skin. All building systems were updated throughout with the removal and replacement of all Mechanical, Electrical and Plumbing systems. Life safety upgrades included new Fire alarm, sprinkler system, pressurizations of stairwells and back-up generators. Site and infrastructure work surrounding this site involved storm water detention and new exterior public spaces.

# Lafayette Sustainable Housing Developments

Lafayette, Georgia

J.M. Wilkerson Construction Co., Inc. was selected as the general contractor for the construction of the new Sustainable Housing development for the Lafayette Housing Authority located in Lafayette, Georgia.

The project consisted of the construction of 30 housing residential units in 15 duplex buildings on two sites. The sites are located on: (1) Foster Circle; and (2) South Steele Street near its intersection with Culberson Avenue. The project is pursuing certification under the LEED for Homes (LEED-H) program.

The duplex buildings total approximately 33,816 sq. ft. of heated space and were constructed of wood framing with cementitious siding and brick and cast stone accents. The demolition and abatement of multiple buildings located at each site was required. Unsuitable soil removal took place at each site and replaced with new structural fill. The project also consisted of parking, site concrete, landscape, hardscape pervious concrete, site grading and utilities, abatement and demolition. The teams completed the project on time and within the owners budgets.

# 92 West Paces Ferry Road

Atlanta, GA

J.M. Wilkerson Construction Co., Inc. was selected to construct the 92 West Paces Apartment project located in the heart of Buckhead.

The 9-story tower offers 210 luxury apartments and 379 parking spaces with an Arriscraft Stone and Stucco Skin. The structure is comprised of post-tension concrete, 5.5" epicore slabs, load-bearing metal stud walls and light gauge infill. The team successfully delivered the first of eight phases 13 months after breaking ground, allowing the first residents to move in while the upper floors are under construction. The project boasts 9½ft ceilings with custom cabinets, granite countertops, wood and tiled floors, stainless steel appliances and architectural trim. The parking garage has a subterranean first floor with 2½ levels above it. The Owner added a 2,000 sq. ft. roof top terrace overlooking the midtown skyline to accompany the 3<sup>rd</sup> floor clubroom, Cyber Lounge and Pool Amenity Deck, plus the 4<sup>th</sup> Floor Rock Gardens, Fire Pit and Bocce Ball Court.

**Building for Generations**

# Castleberry Point Lofts

Atlanta, GA

J.M. Wilkerson Construction Co., Inc. was the general contractor for the Castleberry Point Lofts located in downtown Atlanta, GA.

This building is a 4 story, wood structure consisting of 160,945 sq. ft. of residential space, a 93,000 sq. ft. parking deck and 35,384 sq. ft. of retail space at the street level. This multi-family project has 108 residential units with amenities that include an exercise/club room and a swimming pool located on the roof of the parking deck. The courtyard space includes a water feature and is accessible from the parking deck, street and commercial areas.

This project not only included traffic control and pedestrian safety measures, typical of an urban project, but also took in to account the neighboring fire station. As a result, the requirements to keep the one way street open around the perimeter of the project required continuous coordination with the City of Atlanta's Traffic Department and fire station.

# Hardman Farm - Phase I Stabilization

Helen, Georgia

J.M. Wilkerson Construction Co., Inc. was the general contractor for Hardman Farm Phase I Stabilization project in Helen, GA.

This project was located on a 170 acre historic farm located in Helen Georgia and consisted of the stabilization of 23 buildings including a 7000 square foot, two story timber framed dairy barn that was leaning to one side by more than 18 inches. Each building was stabilized using period detailing and materials and with the long term preservation of the site in mind. JMW also stabilized a landmark gazebo that was located on the top of an Indian Mound that was believed to have been built between 800 and 1450 A.D. This project was completed on time and within the Georgia Department of Natural Resources budget.

# Sweet Auburn Curb Market Renovations & Restoration

Atlanta, GA

J.M. Wilkerson Construction Co., Inc. was selected as the Design / Build contractor for the renovations and restoration of the historic 1924 Sweet Auburn Curb Market, known originally as the Municipal Market of Atlanta, in Atlanta, GA.

Renovations included improvement of the base building systems, the replacement of over 160 tons of HVAC equipment, and the retrofitting of lighting throughout the entire facility. Improvements were made to electrical, plumbing, fire and security systems, as well as the renovation of all restroom facilities. Additional work to the interior included paint throughout the entire facility, as well as cleaning of all ductwork, framing and surfaces. Exterior restoration included all of the exterior façade, overhangs and brick surfaces. This work also included the removal of all non-original steel canopies, removal of paint applied to the historic brick surfaces, as well as, window and door restoration. Concrete repair work along with steel handrails and doorways were also included in the scope of work. All of this work took place while the market remained open. JMW facilitated all drawings, permitting and historic approvals.

# Reinhardt College

## Dobbs Building Renovation

Waleska, GA

J.M. Wilkerson Construction Co., Inc. was selected to complete the renovation, restoration, and additions to the historic 1926 Dobbs classroom building, located on the campus of Reinhardt College in Waleska, Georgia.

This challenging project included the renovation of all interior rooms, as well as exterior windows, building elevations and the surrounding site. New additions included labs, classroom spaces, and lecture halls. New entryways were completed along with site modifications to provide better access for students and faculty. The project was completed within the six month schedule and within the college's budget. This was one of six projects that the JMW teams completed on behalf of Reinhardt College.

# The University of Georgia Chemistry Annex Building

Athens, GA

J.M. Wilkerson Construction Co., Inc. served as the General Contractor for the Chemistry Annex Building at the University of Georgia in Athens, GA.

The annex building houses the Computational Quantum Chemistry and the Computational Center for Molecular Structure and Design. The site was steeply sloped with multiple underground utility and pedestrian crossings. The structure was constrained by the need to match floor levels of an existing building. The architect's solution for this was to raise the building above the interference on six large concrete columns. The unique geometry and exposed structure posed a challenge in construction. The design is a reinforced two and a half story concrete structure, encompassing a total of 20,800 sq. ft. The exterior skin of the building is primarily an aluminum glazed storefront.

# The Rialto Room - LEED "Gold"

Athens, GA

Within the Hotel Indigo, located in Athens, GA, is an exciting music and entertaining venue that J.M. Wilkerson Construction Co., Inc. developed as a second project.

The Rialto Room, named for the legendary Rialto Ballroom in Liverpool, England, was built in less than 5 months. This unique and complex interiors project included custom bar and millwork details, hand cut stone and many different types of wall and floor finishes. In addition to the finished spaces, a state of the art sound and lighting system was installed in the listening room. This interior build-out followed the same sustainable construction practices demanded by the LEED-Gold Hotel Indigo project. Today, the Rialto Room is home to some of the nation's best music acts and serves as an events venue for both hotel and private parties.

# Brook Run Skate Park

DeKalb County, GA

J.M. Wilkerson Construction Co., Inc. was the General Contractor for the Brook Run Skate Park project located in Dunwoody, GA.

The 27,000 sq. ft. skate facility centered around a new 2,500 sq. ft. building with restrooms, concessions, covered viewing and space for tournament organizers. The entire site, down to the countertops in the vending area, is made from concrete. Shotcrete and concrete were used together on vertical and horizontal planes, which is a relatively new design/application feature. Brook Run Skate Park was a very detail-oriented project, similar to building a 3 acre glass surface. All sides and banks that were shotcreted were templated every linear foot. The fine grading was as perfect as the final concrete itself, with all concrete and joints being perfectly smooth. The clubhouse is fully skateable, with ten overhead doors, which remain open to allow skaters access to the restrooms and snack bar areas.

# Georgia National Cemetery

Canton, Georgia

J.M. Wilkerson Construction Co., Inc. was the general contractor for the Georgia National Cemetery in Canton, GA.

This project is located on 277 acres in Cherokee County, west of Canton, Georgia. The first phase of construction called for the development of 135 acres of the property. The construction of over 13,000 feet of roadway and infrastructure. The construction of a 1,900 sq. ft. visitors center, 2,600 sq. ft. administration building and 8,700 sq. ft. maintenance facility. Additional structural steel committal services buildings, public information and assembly areas for ceremonies were included. More than 29,000 full casket gravesites, a 3,000 unit columbarium and 3,000 burial sites for cremation remains. JMW also constructed a 240 foot long bridge where all substructure and superstructure concrete was self-performed. Additionally, JMW performed the installation of piling and the erection of precast beams. The Georgia National Cemetery is among the largest national veterans cemeteries in the country, and it was completed a year ahead of schedule.

# General Mills Concrete Curbs, Panels & Door Package

Covington, Georgia

J.M. Wilkerson Construction Co., Inc. was selected as the General Contractor for the General Mills Concrete Curbs, Panels & Door Package Project in Covington, GA.

This challenging project took place inside the existing Covington facility in the Delta Building. Our teams worked 7 days a week, two shifts, to install new concrete curbs / foundations that varied from 6" to 2'-0" tall. Each curb was used as the base for new insulated metal panel walls, that ranged in size and material from fire partitions to stainless steel.

Additional scope included the installation of industrial doors, (speed doors, role-up doors, man and bump doors). Equipment pads and new openings through existing pre-cast walls were also added.

The JMW teams are currently working inside the plant and are targeted to complete this project on time and within the budgets.

**Building for Generations**

J.M. Wilkerson Construction Co., Inc. was the contractor for the Owens Corning FG1 Rebuild in Fairburn, GA.

This project is unique in nature due to the shut down time frame. Owens Corning mandated a production line shut down to revamp the entire area. JMW was tasked with the approximate 500 CY of cast-in-place concrete in the area. The work had to be completed on time to ensure business continued as usual. This included around the clock work until it is completed, following all necessary stringent safety rules and regulations. JMW self-performed the concrete work.

# Ponce City Market Parcel "F" Projects

Atlanta, Georgia

J.M. Wilkerson Construction Co., Inc. served as the general contractor for the new Ponce City Market Parcel "F" retaining walls and parking deck in Atlanta, GA.

The Parcel "F" project consisted of two unique projects. The first project was the stabilization and construction of retaining walls, which are located on the Southern sections of the Ponce City Market site. The JMW team worked to Design/Build a tieback wall capable of shoring up an existing cast-in-place retaining wall. It runs along the south section of the project. This wall was then used as foundations for an MSE wall, extending an additional 14'-0" up to the Beltline Plaza, located above this site.

The second phase of construction consisted of the construction of an 8 story, 168,000 sq. ft. cast-in-place concrete parking structure, events space and vertical connection from North Avenue to the Beltline, located adjacent to the site. This new concrete structure was designed and constructed to hold up an additional 15 possible stories for future development.

# Transportation

**Building for Generations**

# South Fork Pedestrian Bridge

Atlanta, Georgia

J.M Wilkerson Construction Co., Inc. was selected as the General Contractor for the construction of the South Fork Pedestrian Bridge in Atlanta, GA, on behalf of the South Fork Conservancy.

This new pedestrian bridge will help to connect the Path 400 project with the existing South Fork Confluence trail as well as the Meadow Loop Trail and Cheshire Farm Trail. This 175 foot central span bridge jumps Peachtree Creek, just East of Piedmont Road and adjacent to the I-84 / 400 South Merge. It provides a safe and exciting way to expand all of the various trails it will impact.

This project had many unique limitations as well as challenges to its installation. First, there was not any access to the southern shore of Peachtree Creek at this location for any major equipment, so we had to come from the northern shore. We also had to develop ways to place this 175'-0" central span in one piece, swinging it around and over the creek itself. This plan required the mobilization of one of the largest hydraulic cranes in the Southern US. In addition to hoisting, all concrete needed to be pumped from the north side with the assistance of a 167'-0" long concrete boom/pump truck. This allowed us to place both bridge bents with all future concrete work using a pump hose place on top of the bridge after it was set into its final location.

Construction completed on the southern shore, requiring improvements to the Confluence Trail from the construction zone all the way to the Cedar Chase Private Community. These improvements were designed to impact the existing natural environment as little as possible, but to also allow some smaller vehicular and material access. The JMW teams mulched trimmed trees and branches in-place aiding in soil impacts and erosion throughout the construction process.

# Georgia DOT Bridge Replacement

## Catoosa County, Georgia

J.M. Wilkerson Construction Co., Inc. was the general contractor for this Design /Build Project in Catoosa County, GA.

The project consisted of the repair / replacement of bridge decks and beams associated with (4) bridges located along north and southbound I-75. JMW also had to demo out existing bridge girders on one of the particular bridges, and install new precast bridge girders, along with other repairs. Time restraints varied by bridge and amount of traffic flow. Some were as short as 12 hours of shut down on lanes, bridges and/or areas affected by this project. JMW ran two (2) shifts and worked 24 hours a day. This project required the use of Accelerated strength concrete in most locations. This work was on one of the highest trafficked roads in the state of Georgia.

On 3 of the 4 bridges, we replaced the bridge deck, edge beams and end walls. On 1 of the 4 bridges, we replaced the entire super-structure along with the bridge deck, edge beams and end walls.

# Noses Creek Pedestrian Bridge Replacement

## Kennesaw, GA

J.M. Wilkerson Construction Co., Inc., working with Section 8 partners Delmonico Restoration & Development, was selected for the construction of the Noses Creek Pedestrian Bridge Replacement, located inside the Kennesaw Mountain National Battlefield Park, in Kennesaw, Georgia.

This new 70' Trailblazer steel bridge was installed with as little disruption to the historic surroundings as possible. We provided the installation of the new bridge, foundations and erosion control, plus all final concrete work necessary for the bridge's completion. This challenging project was completed on time and within the National Parks Service's budget.

# Silver Comet Trail

Marietta, GA

J.M. Wilkerson Construction Co., Inc. was selected as the general contractor for the construction of the new Silver Comet Multi-Use Trail Mount Wilkinson Parkway Steel Truss Pedestrian Bridge in Marietta, GA.

This challenging bridge project consisted of three total spans with the longest including a 194 foot clear span directly over Interstate 285. The project required the JMW teams to completely shut down the Interstate several times while large cranes placed bridge spans into their required locations. The project also included the removal of existing paving and replacement of new 10' wide pathways.

# VA Medical Center Pedestrian Bridge

Decatur, GA

J.M. Wilkerson Construction Co., Inc. partnered with the Disabled Veteran company, Biosphere International, for the construction of the new pedestrian bridge located at the Decatur VA Medical Center.

This bridge spans over 4 lanes of traffic and was constructed while the hospital facilities, as well as the main entry to the ER remained open and operational. The main span was lifted in 2 sections and placed after hours to provide minimal disruption to the facility. Our teams completed this complex structure on time and within the VA's budget.

# Walton County Bridge

Atlanta, GA

J.M. Wilkerson Construction Co., Inc. was the general contractor for the construction of over 4,382 feet off Highway 81 in Walton County, as well as the construction of a new 300 foot long bridge and approaches on SR-81 over the Alcovy River beginning west of Riverglen Drive and extending east of Jack Pittman Road.

This project required over 100,000 cubic yards of excavation, including the 65,000 cubic yards of rock that was excavated. JMW self performed all substructure and superstructure concrete including, but not limited to, footings, pile caps, columns, caps, end-walls, wing-walls, diaphragms, bridge decks and barrier walls. Additionally, we self performed the installation of piling and the erection of precast beams.

# Stream, Site & Environmental Experience

**Building for Generations**

# Atlanta Beltline North Avenue Plaza

Atlanta, Georgia

J.M. Wilkerson Construction Co., Inc. was selected as the general contractor for a new pedestrian bike/plaza located adjacent to Ponce City Market, located in Atlanta, GA.

The project was a unit price bid for a pedestrian/bike plaza, approximately  $\frac{3}{4}$  acres, developed in the eastside corridor of the Atlanta Beltline, between North Avenue and Ponce De Leon. The plaza was paved with granite pavers, pervious concrete pavement, concrete sidewalks, & granite curbs to provide a public space for users of the Beltline. It also included minor site demolition & clearing, erosion control, grading, bio-retention area with associated piping, storm drainage piping & structures, hardscape/concrete flatwork, retaining walls, stainless steel safety railing w/ mesh infill, site furnishings, site lighting, and landscaping.

The hardscape/site improvement scope included granite pavers, granite curb, concrete sidewalk/pavement, pervious concrete pavement, paver edging, concrete weir-wall with granite veneer, benches, trash receptacles, etc. This project was constructed in accordance with the Davis-Bacon Wage Decision No. GA140009 1/03/2014 and other prevailing wage requirements as well as in accordance with GDOT.

# Berkeley Lake Dam Rehabilitation

Berkeley Lake, Georgia

J.M. Wilkerson Construction Co., Inc. was selected as the general contractor to complete the restoration of the Category 1, Berkley Lake Dam project in Berkeley Lake, Georgia.

This earthen dam constructed in 1948 is one of the largest in the state. Its structure was damaged in the historic floods of September 2009 when the city experienced a 500 year storm event. Repair work included installation of an internal drainage and siphon system, installation of a piped drainage system, re-grading of the dam, reconstruction of a portion of River District Drive and installation of associated erosion and sedimentation control measures. The scope of work began with draining the 88 acre lake, including fish removal. This project is on-going and is active within a residential community.

## Erosion Control

# Blue Ridge Dam Rehabilitation

Blue Ridge, Fannin County, Georgia

J.M. Wilkerson Construction Co., Inc. was selected to work with Garney Construction, out of Kansas, MO, to update this significant category 1 structure in Blue Ridge, GA.

Completed in 1931 by the Tennessee Electric Power company (TEPCO) and acquired by the Tennessee Valley Authority in 1939, the Blue Ridge Reservoir consists of an embankment dam, a gated saddle spillway, and additional un-gated spillway, and intake tower, a low level outlet structure, and a power plant. Due to new regional seismic hazard studies, it was determined that remedial measures were required for the intake tower and both upstream and downstream slopes to ensure stability during and after the design seismic event.

JMW was responsible for construction of a new downstream embankment rock berm on the existing downstream face of the dam, modifications and repairs to the existing toe drain system, relocation of underground utilities near the powerhouse, relocation of the powerhouse access road, including the construction of two MSE walls and the removal of portions of the upstream slope of the dam, replacement of aggregate filter materials and riprap. Over 500,000 tons of materials were replaced on the slopes of this structure

## Erosion Control

Silt Fence, Hay Bales, Ditch Checks, Check Dams, Rip Rap

## Owner

Tennessee Valley Authority  
Chattanooga, TN.

## Contract Amount

\$689,000. (On Budget)

**Building for Generations**

# Piedmont Road Slope Stabilization

Atlanta, Georgia

J.M. Wilkerson Construction Co., Inc. was contracted to provide stream bank stabilization and repairs for the Rollins Corporation in Atlanta, GA.

The project included the restoration of a 400 foot long, 35 foot high, Level 2 Preferred Method restoration project with the Georgia EPD. The design showed the reduction of the slope to 2:1, the removal of unsuitable soils and placement of armored stone gabion mattresses. At the conclusion of site work, installation of the tow groins and the placement of live stakes were included. Paving work and installation of drainage structures located in the adjacent parking area conclude the project.

The largest construction challenge occurred in September of 2009 when heavy rains fell in Atlanta. Peachtree Creek rose beyond the 100-year flood level and threatened the stability of the bank. JMW had installed only 1/2 of gabion mattresses at the time and worked affectively to protect the slope from catastrophic failure.

## Erosion Control

Silt Fence, Turbidity Barrier, Gabion Baskets

## Owner

Rollins Inc.  
Pat Brannon  
404.888.2287

## Start Date

August 2009

## Completion Date

November 2009 (On Time)

## Contract Amount

\$475,077 (On Budget)

## Compelling Reason To Choose J.M. Wilkerson Construction

### What JMW Brings to the Table:

- Long standing history of successful construction.
- Team has years of diverse construction experience.
- Understanding of large and small projects.
- Extensive background in both Commercial and Heavy Construction.
- Sound financial and staffing history.
- JMW's team will devote partner level staff participation throughout the entire development and construction process.
- Available and talented staffing ready to participate.
- Necessary bonding, safety and construction licenses to participate.

J.M. Wilkerson Construction possess the necessary skills and expertise to provide a well coordinated, cost effective solution meeting all of the needs of this project. What we really bring to the table is a team steeped with years of construction experience. We have never failed to complete a project and commit ourselves to deliver the highest quality project possible.

At J.M. Wilkerson we pride ourselves on our communication. To communicate clearly, as well as to document those decisions, is an essential component of every successful project. Portraying our message in written and visual formats is key, but equally important are the people delivering the message. We select a team of experts at a Principal level to execute each project according to the scope of work. JMW takes care at the beginning of each project to assign a team of staff who are best qualified to deliver the best service to our client. We value our clients and allocate staff thoughtfully. The team will be in place from pre-construction until the punch-list phase. The employees of JMW have decades of experience both in the office and in the field. Our people are our biggest asset and deliver outstanding quality for the most competitive price.

Thank you for the opportunity to submit our team's qualifications, please do not hesitate to contact anyone listed with questions or additional information needed for your team's assessment of our company.
