

Noses Creek Pedestrian Bridge Replacement

Kennesaw, GA

J.M. Wilkerson Construction Co., Inc., working with Section 8 partners Delmonico Restoration & Development, was selected for the construction of the Noses Creek Pedestrian Bridge Replacement, located inside the Kennesaw Mountain National Battlefield Park, in Kennesaw, Georgia.

This new 70' Trailblazer steel bridge was installed with as little disruption to the historic surroundings as possible. We provided the installation of the new bridge, foundations and erosion control, plus all final concrete work necessary for the bridge's completion. This challenging project was completed on time and within the National Parks Service's budget.
