Our Mission

J.M. Wilkerson Construction's mission is to manage the construction process to ensure we give our clients more value than expected in Quality Assurance, Cost Control, Schedule, Performance, Working Relationship and Safety.

Jim Wilkerson
Owner/Chairman

- The JMW commitment extends beyond the construction process. We strive to earn your trust. Trust is the foundation to all successful working relationships.
- We perform our work with integrity. Our word is our commitment, and we never waiver from a commitment we make.
- We take ownership of a challenge. Challenges are inevitable, therefore, we admit our mistakes and take corrective action to ensure a positive end result.
- We work hard to exceed your expectations. This is our mission and our commitment to you.

J.M. Wilkerson Construction seeks long term involvement with our clients. Repeat business from satisfied clients is critical to our success. As partners in the construction process, we work together to reach common goals.

- J.M. Wilkerson has been in Business for over 43 years
- Ownership – Corporation
- State of Residency / Incorporation – Georgia
- Office Location – Marietta, Georgia

Brook Run Skate Park – Dunwoody, Georgia

Established in 1982 by Jim Wilkerson, J.M. Wilkerson Construction provided tenant interior renovations before expanding into industrial, office, institutional and concrete work. Today, JMW provides a wide array of services and has experience in many building types including, but not limited to, multi-family, historic renovation / adaptive reuse, industrial, tenant interiors, retail, religious, institutional, transportation, hospitality, concrete, rail and environmental projects. Our mixture of commercial and heavy/industrial projects is unique in the Southeastern markets.

The ability to provide services to both major market sectors, allows our teams to work on a wide array of projects. When it benefits a project, JMW can perform sub-contracting work in-house, providing a single source of responsibility and management. This frequently adds genuine value to our team and provides the client with greater protection. JMW's steady growth is based on the continued commitment of Mr. Wilkerson and his employees to provide personal attention and exceptional service to each client. Mr. Wilkerson takes pride in his organization and plays an active role in every project JMW undertakes. This family-owned business works hard to maintain its quality and talented staff, many of whom have been with the company for over 43 years.

JMW's President and CEO is Brett Hawley. Brett joined the team in 1994, moving from Kansas City, MO to Georgia. His extensive knowledge in heavy construction complemented JMW's already broad experience base. Brett brought not only heavy civil and construction backgrounds, but commercial, hospitality and estimating knowledge, as well. Brett has helped the JMW team grow many new market sectors providing additional experience for future jobs.

JMW's Vice Presidents are Austin Pruitt, Michael Travis and Chris Griffeth. Austin Pruitt has worked with JMW in various roles and is now the Chief Estimator. Pruitt's knowledge of construction, estimating, and his ability to coordinate subcontractors makes him a valued member of the JMW Estimating Department. Austin works with both our Commercial Construction bids and Heavy Construction Departments and leads most estimating for JMW.

Mike Travis is the leader of the JMW Business Development department. He has been connected to the Design, Construction and Development industry for more than twenty-five years. As an architect graduating from the University of Oklahoma, he helped to execute and mange over a billion dollars in projects with teams like RTKL, Perkins Will and Smallwood Reynolds Stewart Stewart. His background in architecture, development and construction is critical to JMW's pre-construction efforts and new business pursuits.

As one of JMW's most accomplished project managers, Chris Griffeth has worked on all types of projects and has been with the JMW team for over fifteen years. Possessing many strengths in his management, Chris has become quite successful in the administration of HUD or federally funded as well as task order or on-call projects. He has successfully completed multiple projects for the Atlanta Housing Authority, City of Atlanta as well as Federal and Military agencies.

Services

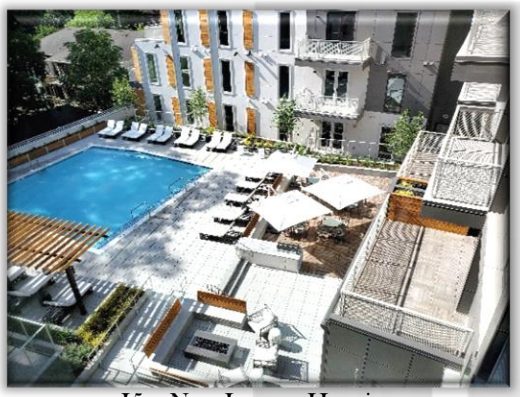
J. M. Wilkerson Construction offers a well-rounded array of construction services in the following areas:

Pre-Construction Services
Planning and Procurement
Design Review & Value Analysis
Budget and Cost Estimation
Value Engineering
Building Information Modeling (BIM)
LEED or Sustainable Construction Review
Design / Build
Scheduling

Construction Services
Project Management
Cost Control
CM @ Risk
General Construction
Sustainable Construction
Environmental Construction
Heavy /Civil / Concrete Construction
Site & Grading

We take great pride in giving our clients more value than they expect, and to that end, dedicate ourselves to constructing the highest quality product available. Just as significant, are the relationships we develop along the way.

We strive to establish a healthy, respectful relationship that will help us provide the highest level of service, which will continue in the years ahead. This philosophy has remained a consistent thread throughout JMW's 43 years in operation, allowing us to continue "Building for Generations".



J5 – New Luxury Housing

400 Bishop – New Construction

Hotel Indigo in Athens, GA – LEED Gold

MARTA Grout Pockets – Heavy Construction

Building Information Modeling (BIM)

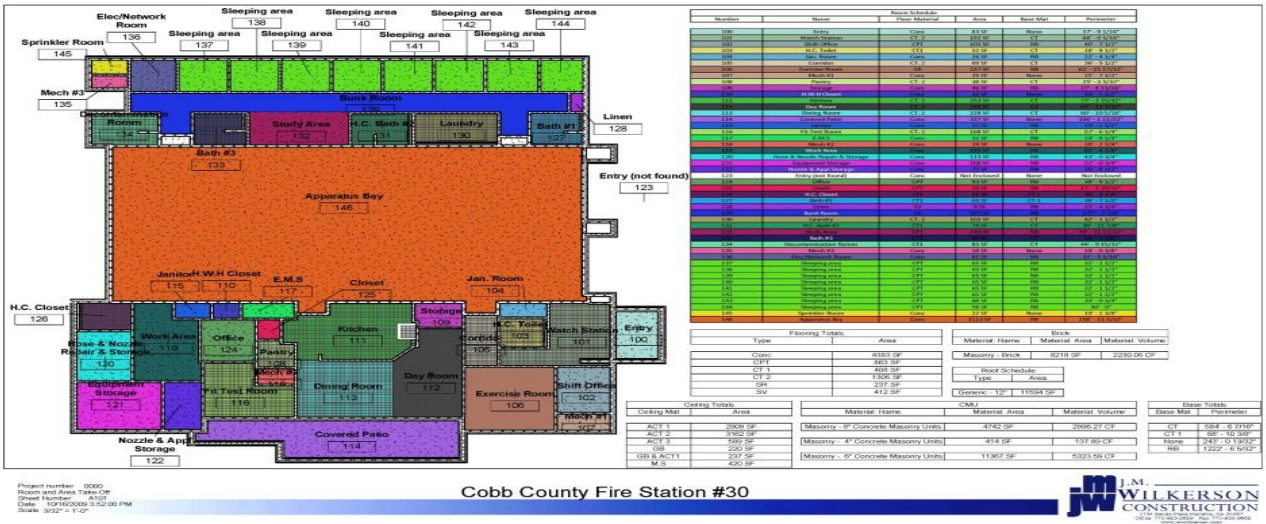
J.M. Wilkerson Construction utilizes Building Information Modeling (BIM) software on many projects. Understanding the importance of this technology for our industry, we have employees with experience understanding and utilizing BIM models for pricing, clarification and review. In addition, we work with our clients and design teams in the review of models for the betterment of the project.

BIM creates a dynamic 3D model of a project which aids in the concept, design, and construction process. It does this through the use of object-driven data which includes building geometry, spatial relationships, geographical information, quantities, and the properties of building components. This allows us to visualize, coordinate, predict costs, resolve conflicts, and extract data, before we actually start the construction process.

BIM has become a major part of our process from the pre-construction phase through final closeout, enabling the Owners, design team, and construction team to see the project in a 3D digital model, during all phases of construction. Being able to visualize the project at the conceptual phase, allows us to plan budgets, logistics, and phasing, as well as, to define the scope of work for the individual trades, scheduling around any conflicts seen in the model. This helps reduce costs that may have required rework, change orders, RFI's, and delays to the project.

JMW utilizes the following programs:

- Revit Architecture
- Revit Structure
- Revit MEP
- Auto CAD Civil 3D
- 3DS Max Design
- Navis Works
- QTO
- Auto CAD (Full Suite)



Building for Generations

Personnel Capability

J.M. Wilkerson Construction's commitment to its employees has stayed strong throughout the company's history. JMW currently has over 154 employees. Located at our home office are 19 employees providing project and company management, as well as, estimating, accounting, marketing and administrative activities. Located in the field, providing supervision, are 20 employees. For additional detail see the break down below.

Home Office – 19	Superintendents – 20	Craftworkers – 53
Project Engineers – 5	Foremen – 10	Laborers/Helpers – 47

Safety Information

Safety in all of J.M. Wilkerson Construction's operations is not only a company goal, but a requirement. We create a culture in which safety is a core value. Our commitment is to provide a safe and productive environment for everyone involved with our projects. At no time will safety be compromised because of cost. OSHA standards are met or exceeded at all times.

It is JMW's belief that accidents can be prevented through planning, training and a cooperative effort in all areas of our operations, with our goal being to eliminate all injuries. This goal is accomplished by the following safe working practices on all of our construction sites.

The project managers, superintendents, foremen and safety manager have full support of management in enforcing the provisions of our Safety Policy, as it relates to the responsibilities assigned to them. Prior to start of work, each trade attends a preparatory meeting to discuss the scope of work, its hazards and controls.

Our superintendents and foreman are required to keep their safety training and education current. Each superintendent conducts weekly site safety meetings and inspections. We also utilize available safety resources such as the AGC's Site Safety Training Programs and the Construction Safety Competency Training courses.

JMW is a Drug Free Workplace, certified by the GA Workers Compensation Board.

Required Supervisor Training
OSHA 30 Hour
CPR / First Aid
Confined Space Entry
Fall Protection
Scaffold Training
Trench / Excavation Training

Site Safety Items
New Hire Safety Orientation Training
Site Safety Orientation
Drug Free Workplace and Testing
Safety Control System
Preparatory Meetings

Hartsfield Jackson – Atlanta, GA

J.M. WILKERSON CONSTRUCTION

Industry Affiliations, Memberships, Awards & Honors

Over the years, J.M. Wilkerson Construction has successfully completed many general construction projects for Federal, State, local and private clients. We have completed new construction, adaptive-reuse, historic rehabilitation, environmental, heavy civil, concrete, religious, industrial and tenant work. We pride ourselves on providing only the highest quality services, using the most professional teams possible. J.M. WILKERSON CONSTRUCTION

Building for Generations

James M. Wilkerson
Owner/Chairman

J.M. WILKERSON CONSTRUCTION

Education
Kansas State University
Bachelor of Science – Business Administration – 1968

Business History
J.M. Wilkerson Construction Co., Inc.
Owner/Chairman 1982 – Present

Holder Construction Company
Superintendent 1972 – 1981

U. S. Army
1st Lieutenant,
Corps of Engineers
1968 - 1971

Jim Wilkerson learned solid values growing up in rural Kansas, graduating from Kansas State University in 1968. He also learned valuable life and construction skills serving three years as an officer in the U.S. Army, Corps of Engineers. After graduating from Kansas State University, he worked for Atlanta-based Holder Construction Company for ten years. He won Holders' coveted Superintendent of the Year Award on two separate occasions, and he appreciated the opportunity to get involved with both large and small projects with such a reputable company.

In 1982, at the age of 35, Jim Wilkerson started J.M. Wilkerson Construction Co., Inc. He has overseen over $500 million worth of construction in those years. He feels one of his greatest accomplishments has been putting a great team together - one that can manage through good times as well as adversity. Jim Wilkerson has always believed the success of a business depends on the quality and performance of its people. JMW has always prioritized the recruitment of the best quality employees and encourages continuous improvement through training and learning new developments in the industry to improve client satisfaction.

Mike Travis has been connected to the design and construction industry for more than 23 years. As an Architect, he worked on over a billion dollars worth of construction projects. As a Developer/Owner's Representative, Mike oversaw hundreds of millions of dollars worth of work put in place for private equity teams, facilitating both the design and entitlement processes. Now, as a General Contractor, he has a wealth of knowledge, matched by few. This allows him to act as a bridge between Developer, Design Team and Construction Team. This coordination role has been very valuable as one of our leaders in our pre-construction activities and throughout the construction process.

Project Manager 2007 – 2014

Strategic Outsourcing Solutions, LLC

With over eighteen years experience in the construction industry, Chris Griffeth is an asset to any project. Chris was previously one of JMW's most accomplished project managers. Chris has worked on all types of projects and has been with the JMW team for over 15 years. Possessing many strengths in his management, Chris has become quite successful in the administration of HUD or federally funded as well as task order or on-call projects. He has successfully completed multiple projects for the Atlanta Housing Authority, City of Atlanta as well as Federal and Military agencies. He enjoys working on difficult and challenging projects and believes that communication between the Owner, Architect and Contractor is critical to a successful project.

92 West Paces Ferry Road

Atlanta, GA

J.M. Wilkerson Construction Co., Inc. was selected to construct the 92 West Paces Apartment project located in the heart of Buckhead.

The 9-story tower offers 210 luxury apartments and 379 parking spaces with an Arriscraft Stone and Stucco Skin. The structure is comprised of post-tension concrete, 5.5" epicore slabs, load-bearing metal stud walls and light gauge infill. The team successfully delivered the first of eight phases 13 months after breaking ground, allowing the first residents to move in while the upper floors are under construction. The project boasts 9½ft ceilings with custom cabinets, granite countertops, wood and tiled floors, stainless steel appliances and architectural trim. The parking garage has a subterranean first floor with 2½ levels above it. The Owner added a 2,000 sq. ft. roof top terrace overlooking the midtown skyline to accompany the 3rd floor clubroom, Cyber Lounge and Pool Amenity Deck, plus the 4th Floor Rock Gardens, Fire Pit and Bocce Ball Court.

The Aramore – Phases I & II

Atlanta, GA

J.M. Wilkerson Construction Co., Inc. started the new construction of Phase I of the Aramore in November 2002 and Phase II in July 2003 in Atlanta, GA.

With a total of 120 condominiums, each phase consisted of six residential levels with retail space on the street level. The structure is made up of approximately 145,000 sq. ft. of cast in place concrete. The financial and scheduling aspects of the precast parking deck, that connects the two phases, were split between the two contracts. The project also included over 20,000 sq. ft. of street front retail and streetscape improvements. Both phases were finished on time and within the developer's budgets.

Castleberry Point Lofts

Atlanta, GA

J.M. WILKERSON CONSTRUCTION

J.M. Wilkerson Construction Co., Inc. was the general contractor for the Castleberry Point Lofts located in downtown Atlanta, GA.

This building is a 4 story, wood structure consisting of 160,945 sq. ft. of residential space, a 93,000 sq. ft. parking deck and 35,384 sq. ft. of retail space at the street level. This multi-family project has 108 residential units with amenities that include an exercise/club room and a swimming pool located on the roof of the parking deck. The courtyard space includes a water feature and is accessible from the parking deck, street and commercial areas.

This project not only included traffic control and pedestrian safety measures, typical of an urban project, but also took in to account the neighboring fire station. As a result, the requirements to keep the one way street open around the perimeter of the project required continuous coordination with the City of Atlanta's Traffic Department and fire station.

Building for Generations

Brook Run Skate Park

DeKalb County, GA

J.M. Wilkerson Construction Co., Inc. was the General Contractor for the Brook Run Skate Park project located in Dunwoody, GA.

The 27,000 sq. ft. skate facility centered around a new 2,500 sq. ft. building with restrooms, concessions, covered viewing and space for tournament organizers. The entire site, down to the countertops in the vending area, is made from concrete. Shotcrete and concrete were used together on vertical and horizontal planes, which is a relatively new design/application feature. Brook Run Skate Park was a very detail-oriented project, similar to building a 3 acre glass surface. All sides and banks that were shotcreted were templated every linear foot. The fine grading was as perfect as the final concrete itself, with all concrete and joints being perfectly smooth. The clubhouse is fully skateable, with ten overhead doors, which remain open to allow skaters access to the restrooms and snack bar areas.

South Fork Pedestrian Bridge

Atlanta, Georgia

J.M. WILKERSON CONSTRUCTION

J.M Wilkerson Construction Co., Inc. was selected as the General Contractor for the construction of the South Fork Pedestrian Bridge in Atlanta, GA, on behalf of the South Fork Conservancy.

This new pedestrian bridge will help to connect the Path 400 project with the existing South Fork Confluence trail as well as the Meadow Loop Trail and Cheshire Farm Trail. This 175 foot central span bridge jumps Peachtree Creek, just East of Piedmont Road and adjacent to the I-84 / 400 South Merge. It provides a safe and exciting way to expand all of the various trails it will impact.

This project had many unique limitations as well as challenges to its installation. First, there was not any access to the southern shore of Peachtree Creek at this location for any major equipment, so we had to come from the northern shore. We also had to develop ways to place this 175'-0" central span in one piece, swinging it around and over the creek itself. This plan required the mobilization of one of the largest hydraulic cranes in the Southern US. In addition to hoisting, all concrete needed to be pumped from the north side with the assistance of a 167'-0" long concrete boom/pump truck. This allowed us to place both bridge bents with all future concrete work using a pump hose place on top of the bridge after it was set into its final location.

Construction completed on the southern shore, requiring improvements to the Confluence Trail from the construction zone all the way to the Cedar Chase Private Community. These improvements were designed to impact the existing natural environment as little as possible, but to also allow some smaller vehicular and material access. The JMW teams mulched trimmed trees and branches in-place aiding in soil impacts and erosion throughout the construction process.

General Mills Concrete Curbs, Panels & Door Package

Covington, Georgia

J.M. WILKERSON CONSTRUCTION

J.M Wilkerson Construction Co., Inc. was selected as the General Contractor for the General Mills Concrete Curbs, Panels & Door Package Project in Covington, GA.

This challenging project took place inside the existing Covington facility in the Delta Building. Our teams worked 7 days a week, two shifts, to install new concrete curbs / foundations that varied from 6" to 2'-0" tall. Each curb was used as the base for new insulated metal panel walls, that ranged in size and material from fire partitions to stainless steel.

Additional scope included the installation of industrial doors, (speed doors, role-up doors, man and bump doors). Equipment pads and new openings through existing pre-cast walls were also added.

The JMW teams are currently working inside the plant and are targeted to complete this project on time and within the budgets.

Ponce City Market Parcel "F" Projects

Atlanta, Georgia

J.M. Wilkerson Construction Co., Inc. served as the general contractor for the new Ponce City Market Parcel "F" retaining walls and parking deck in Atlanta, GA.

The Parcel "F" project consisted of two unique projects. The first project was the stabilization and construction of retaining walls, which are located on the Southern sections of the Ponce City Market site. The JMW team worked to Design/Build a tieback wall capable of shoring up an existing cast-in-place retaining wall. It runs along the south section of the project. This wall was then used as foundations for an MSE wall, extending an additional 14'-0" up to the Beltline Plaza, located above this site.

The second phase of construction consisted of the construction of an 8 story, 168,000 sq. ft. cast-in-place concrete parking structure, events space and vertical connection from North Avenue to the Beltline, located adjacent to the site. This new concrete structure was designed and constructed to hold up an additional 15 possible stories for future development.

Georgia DOT Bridge Replacement

Catoosa County, Georgia

J.M. Wilkerson Construction Co., Inc. was the general contractor for this Design /Build Project in Catoosa County, GA.

The project consisted of the repair / replacement of bridge decks and beams associated with (4) bridges located along north and southbound I-75. JMW also had to demo out existing bridge girders on one of the particular bridges, and install new precast bridge girders, along with other repairs. Time restraints varied by bridge and amount of traffic flow. Some were as short as 12 hours of shut down on lanes, bridges and/or areas affected by this project. JMW ran two (2) shifts and worked 24 hours a day. This project required the use of Accelerated strength concrete in most locations. This work was on one of the highest trafficked roads in the state of Georgia.

On 3 of the 4 bridges, we replaced the bridge deck, edge beams and end walls. On 1 of the 4 bridges, we replaced the entire super-structure along with the bridge deck, edge beams and end walls.

Blue Ridge Dam Rehabilitation

Blue Ridge, Fannin County, Georgia

J.M. WILKERSON CONSTRUCTION

J.M. Wilkerson Construction Co., Inc. was selected to work with Garney Construction, out of Kansas, MO, to update this significant category 1 structure in Blue Ridge, GA.

Completed in 1931 by the Tennessee Electric Power company (TEPCO) and acquired by the Tennessee Valley Authority in 1939, the Blue Ridge Reservoir consists of an embankment dam, a gated saddle spillway, and additional un-gated spillway, and intake tower, a low level outlet structure, and a power plant. Due to new regional seismic hazard studies, it was determined that remedial measures were required for the intake tower and both upstream and downstream slopes to ensure stability during and after the design seismic event.

JMW was responsible for construction of a new downstream embankment rock berm on the existing downstream face of the dam, modifications and repairs to the existing toe drain system, relocation of underground utilities near the powerhouse, relocation of the powerhouse access road, including the construction of two MSE walls and the removal of portions of the upstream slope of the dam, replacement of aggregate filter materials and riprap. Over 500,000 tons of materials were replaced on the slopes of this structure

Erosion Control

Silt Fence, Hay Bales, Ditch Checks, Check Dams, Rip Rap

Murphy Candler Spillway

DeKalb County, Georgia

J.M. WILKERSON CONSTRUCTION

In Early 2002, J.M. Wilkerson Construction Co., Inc. was contracted to complete modifications to the Murphy Candler category 1 dam located in the Dunwoody area of Atlanta, GA.

Built in the late 1950's, the Murphy Candler dam and park established a 135 acre park. The scope of work completed by JMW included the demolition of a portion of the existing spillway and the construction of an under-drain system. The new installations required grouting of a spillway pipe, construction of a wave protection beam and associated dewatering. Our teams were also responsible for modifications to the dam, erosion, sedimentation and pollution control.

Stone Mountain Dam Spillway Replacement

Stone Mountain, Georgia

J.M. Wilkerson Construction Co., Inc. was contracted to remove an existing 67-foot wide grouted rip rap spillway in Stone Mountain, GA.

The spillway is located on the south end of the Stone Mountain dam completed in 1965. This category 1 dam created the park's 363 acre lake. JMW replaced the existing spillway with a cast-in-place concrete stepped spillway with a control section and stilling basin. The spillway serves as the principal and emergency system for controlling the dam and lake levels. Completing the project on time was critical, as Stone Mountain Lake hosts the "Scarlet O'Hara" authentic paddlewheel riverboats, and many other recreational functions on the lake. The spillway is essential to controlling the level of the lake for all uses at the facility making this project critical to the parks use and business.

JMW placed over 4,000 cubic yards of concrete in nearly half an acre of surface area. This project was completed in less than seven months, finishing six weeks ahead of schedule.

J.M. WILKERSON CONSTRUCTION

Building for Generations

Compelling Reason To Choose J.M. Wilkerson Construction

What JMW Brings to the Table:

- Long standing history of successful construction.
- Team has years of heavy concrete experience.
- Understanding of large and small projects.
- Extensive background in both Commercial and Heavy Construction.
- Sound financial and staffing history.
- JMW's team will devote partner level staff participation throughout the entire development and construction process.
- Available and talented staffing ready to participate.
- Necessary bonding, safety and construction licenses to participate.

J.M. Wilkerson Construction possess the necessary skills and expertise to provide a well coordinated, cost effective solution meeting all of the needs of this project. What we really bring to the table is a team steeped with years of construction experience. We have never failed to complete a project and commit ourselves to deliver the highest quality project possible.

At J.M. Wilkerson we pride ourselves on our communication. To communicate clearly, as well as to document those decisions, is an essential component of every successful project. Portraying our message in written and visual formats is key, but equally important are the people delivering the message. We select a team of experts at a Principal level to execute each project according to the scope of work. JMW takes care at the beginning of each project to assign a team of staff who are best qualified to deliver the best service to our client. We value our clients and allocate staff thoughtfully. The team will be in place from pre-construction until the punch-list phase. The employees of JMW have decades of experience both in the office and in the field. Our people are our biggest asset and deliver outstanding quality for the most competitive price.

Thank you for the opportunity to submit our team's qualifications, please do not hesitate to contact anyone listed with questions or additional information needed for your team's assessment of our company.
